~ ADVENTURE AWAITS ~

AFRICAN WILDLIFE AND NATURE

A Safari Colouring Adventure

40 Hand-Drawn Safari Illustrations • 10 Amazing Wildlife Facts
5 Fun Bonus Activities • For Ages 5–10

Safari Wonders Press

First Edition • 2025

No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means — electronic, mechanical, photocopying, recording, or otherwise — without the prior written permission of the publisher, except for brief quotations in a review.

All illustrations in this book were originally created for this publication. African animal names, habitat descriptions, and educational facts have been verified against reputable zoological and conservation sources including the African Wildlife Foundation, San Diego Zoo Wildlife Alliance, National Geographic Education, and the IUCN Red List (2024). Every effort has been made to ensure accuracy; any errors are the publisher's responsibility.

This book was independently authored and is not sponsored, endorsed, or affiliated with Amazon, Kindle Direct Publishing (KDP), or any other publisher. Amazon KDP is a trademark of Amazon.com, Inc.

AI-Assisted Content Disclosure (KDP Compliant): Illustrations in this book were created with the assistance of artificial intelligence (AI) image-generation tools, then individually reviewed, edited, and approved for anatomical accuracy, line quality, and age-appropriateness. All educational text, activities, layout, and design were human-authored and human-reviewed. The publisher takes full responsibility for the content.

Printed on demand. Paper: White (60 lb / 90 gsm). Ink: Black & white interior; colour cover.
Trim: 8.5 × 11 in (216 × 279 mm). 64 pages.

A Note for Parents and Teachers: This colouring book is designed for crayons, coloured pencils, and gel pens. If young artists use markers, please place a sheet of blank paper behind the page to prevent show-through. Encourage children to observe the real colours of African wildlife — but there are no wrong colours in creativity!

Dedicated to every young explorer who dreams of safari.
May this book inspire curiosity, kindness, and care for Africa's wild places.

Welcome to African Wildlife and Nature!

A Message for Young Explorers

Hello, safari explorer! Get ready for a wild adventure across Africa — a huge continent with deserts, grasslands, wetlands, mountains, forests, and coasts. In this book you will meet the Big Five (lion, leopard, elephant, buffalo, and rhinoceros), giraffes that tower above the trees, zebras with one-of-a-kind stripes, baby animals cuddled beside their families, brilliant birds, shy reptiles, and misty waterfalls and sunrise plains.

How to use this book: Each illustration is on its own page. Colour with crayons, coloured pencils, or gel pens — whatever you love! Try looking up the real animal colours on a parent's phone, then add your own imagination. Read the animal's name at the bottom of each page. In the middle of the book you will find 10 Amazing Wildlife Facts — short and true. At the back, enjoy 5 bonus activities: matching, counting, spot-the-difference, a maze, and a drawing prompt. Check your answers in the Answer Key.

A note on habitats: Not every animal in this book lives in the same place! Lions and meerkats love open savannah; gorillas live in rainforests; flamingos gather at soda lakes; pangolins hide in woodlands. Watch for the habitat clues in each picture — acacia trees, baobab trunks, papyrus reeds, rocky kopjes, and forest canopies.

Did you know?	Africa is home to more than 1,100 mammal species — more than any other continent!
Africa is big!	The continent covers about 30 million km². You could fit the USA, China, India, and Europe inside it!
Respect wildlife	The animals in this book are wild. In real life we watch them from a safe distance and protect their homes.

For parents & teachers: This book aligns with early science curiosity (ages 5–10) — animal traits, habitats, and biodiversity. Use the facts for short read-alouds and the activities for fine-motor and reasoning practice. All art has thick, enclosed outlines for crayons and large motor control; each image was checked for anatomical plausibility (ear shape, trunk, horn, mane, beak) and for clean white backgrounds.

Inside Your Safari Adventure

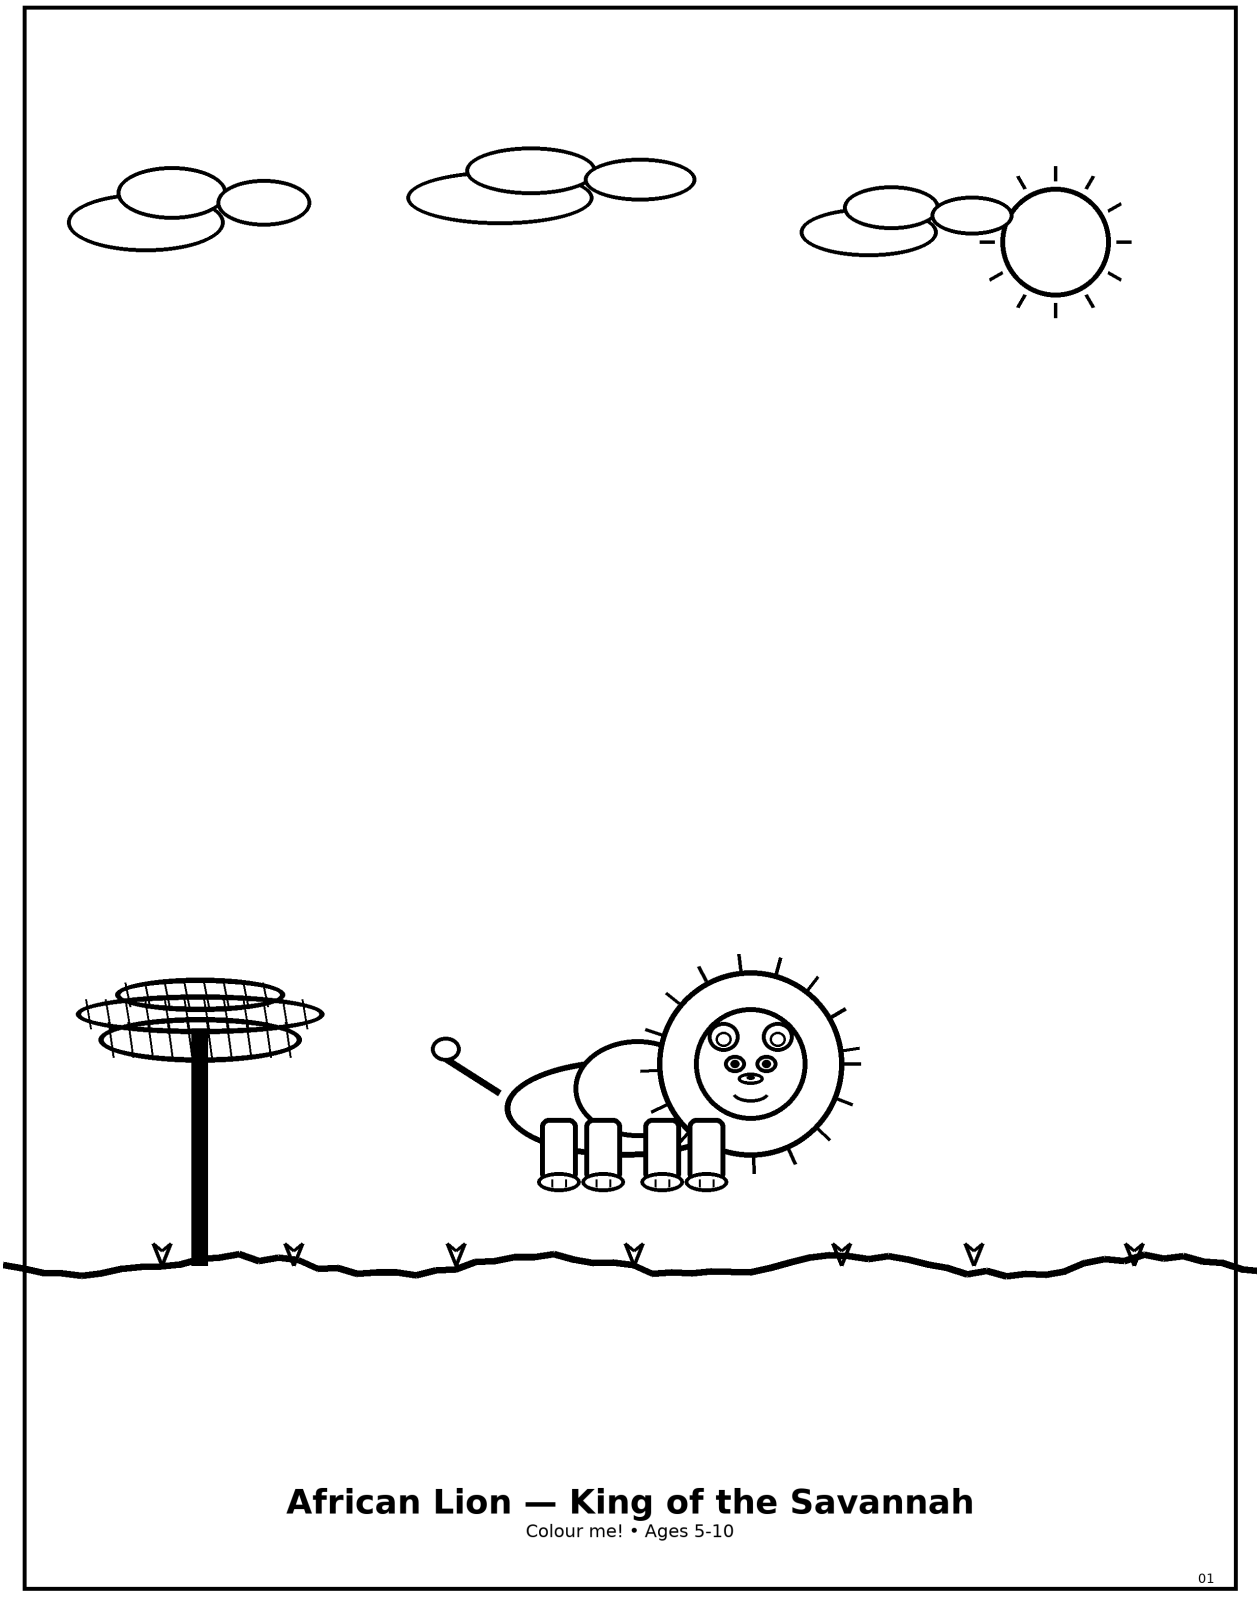

What you will discover

Section	What is Inside	Pages
Welcome & How to Use	Tips for explorers, parents, and teachers	3
A. The African Big Five	Lion, leopard, elephant, buffalo, white rhinoceros — in natural settings	5–9
B. Animals of the Savannah	Giraffe, zebra, cheetah, hyena, warthog, meerkat, wild dog, ostrich, impala, hippo	10–19
C. Baby Animals & Family Life	Elephant calf, lion cubs, baby giraffe, zebra foal, baby rhinos, monkeys, gorillas	20–26
D. Birds, Reptiles & Other Wildlife	Fish eagle, secretarybird, hornbill, flamingos, crocodile, chameleon, tortoise, pangolin	27–34
E. Landscapes & Nature	Acacias, baobab, watering hole, grasslands, riverbank, kopjes, waterfall, sunrise, forest, panorama	35–44
10 Amazing Wildlife Facts	Short, verified facts about African nature — easy to read	45–49
Animal Identification Guide	Quick reference of all 40 animals with common names	50
5 Bonus Activities + Answer Key	Matching, counting, spot-the-difference, maze, drawing; answers at the end	51–57
Your Safari Certificate & Closing	Celebrate your journey and plan the next adventure	58–60

Each colouring page has the animal's name at the bottom. For best results, place a blank sheet behind the page if you use markers. There are 40 unique colouring illustrations — no duplicates — plus activities and facts. Look for the page numbers at the bottom!

Africa's Regions in This Book • Savannah (East & Southern Africa) • Congo Rainforest • Wetlands & Rivers (Nile, Okavango) • Deserts & Kopjes • Soda Lakes (Rift Valley) • Coasts & Mountains

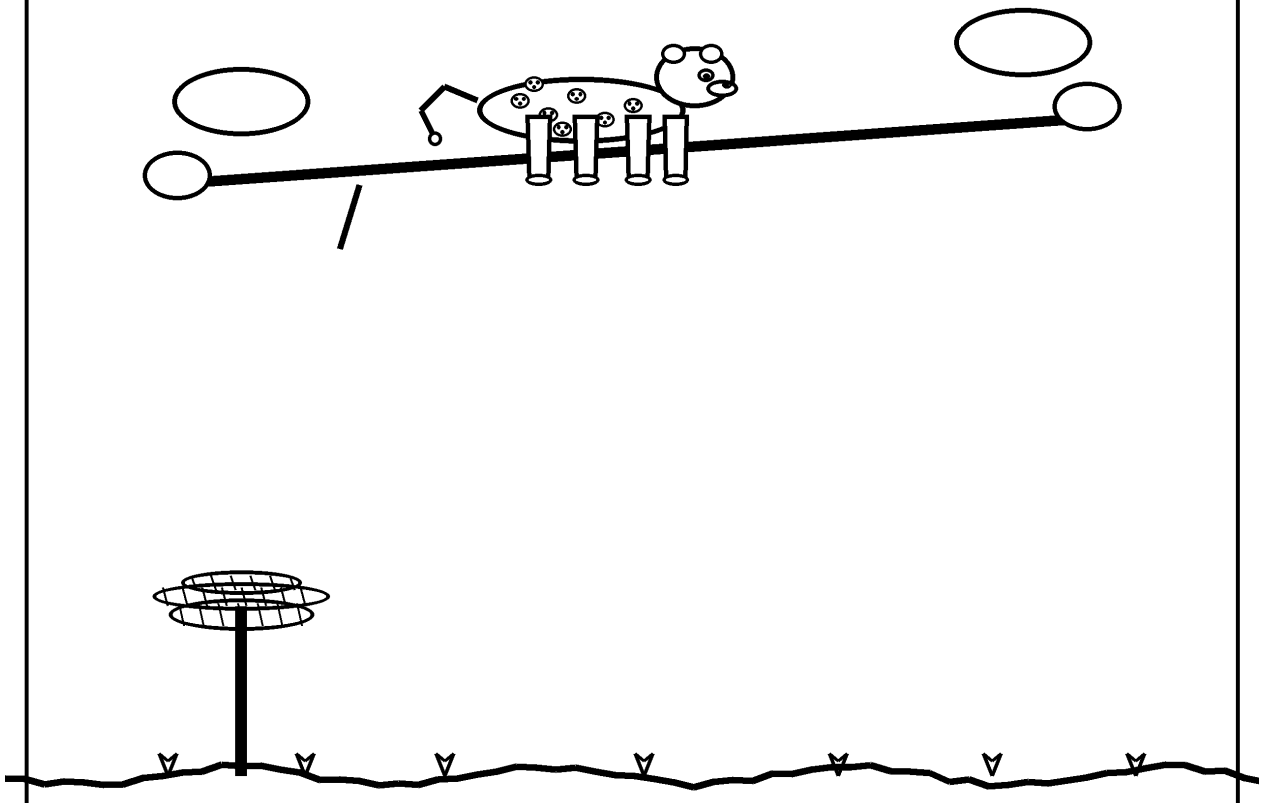

1. African Lion — King of the Savannah

Panthera leo — Lives in savannah and grasslands. Males have grand manes that protect them. Listen for their roar up to 8 km away!

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

2. African Leopard — Spotted Climber

African Leopard — Spotted Climber

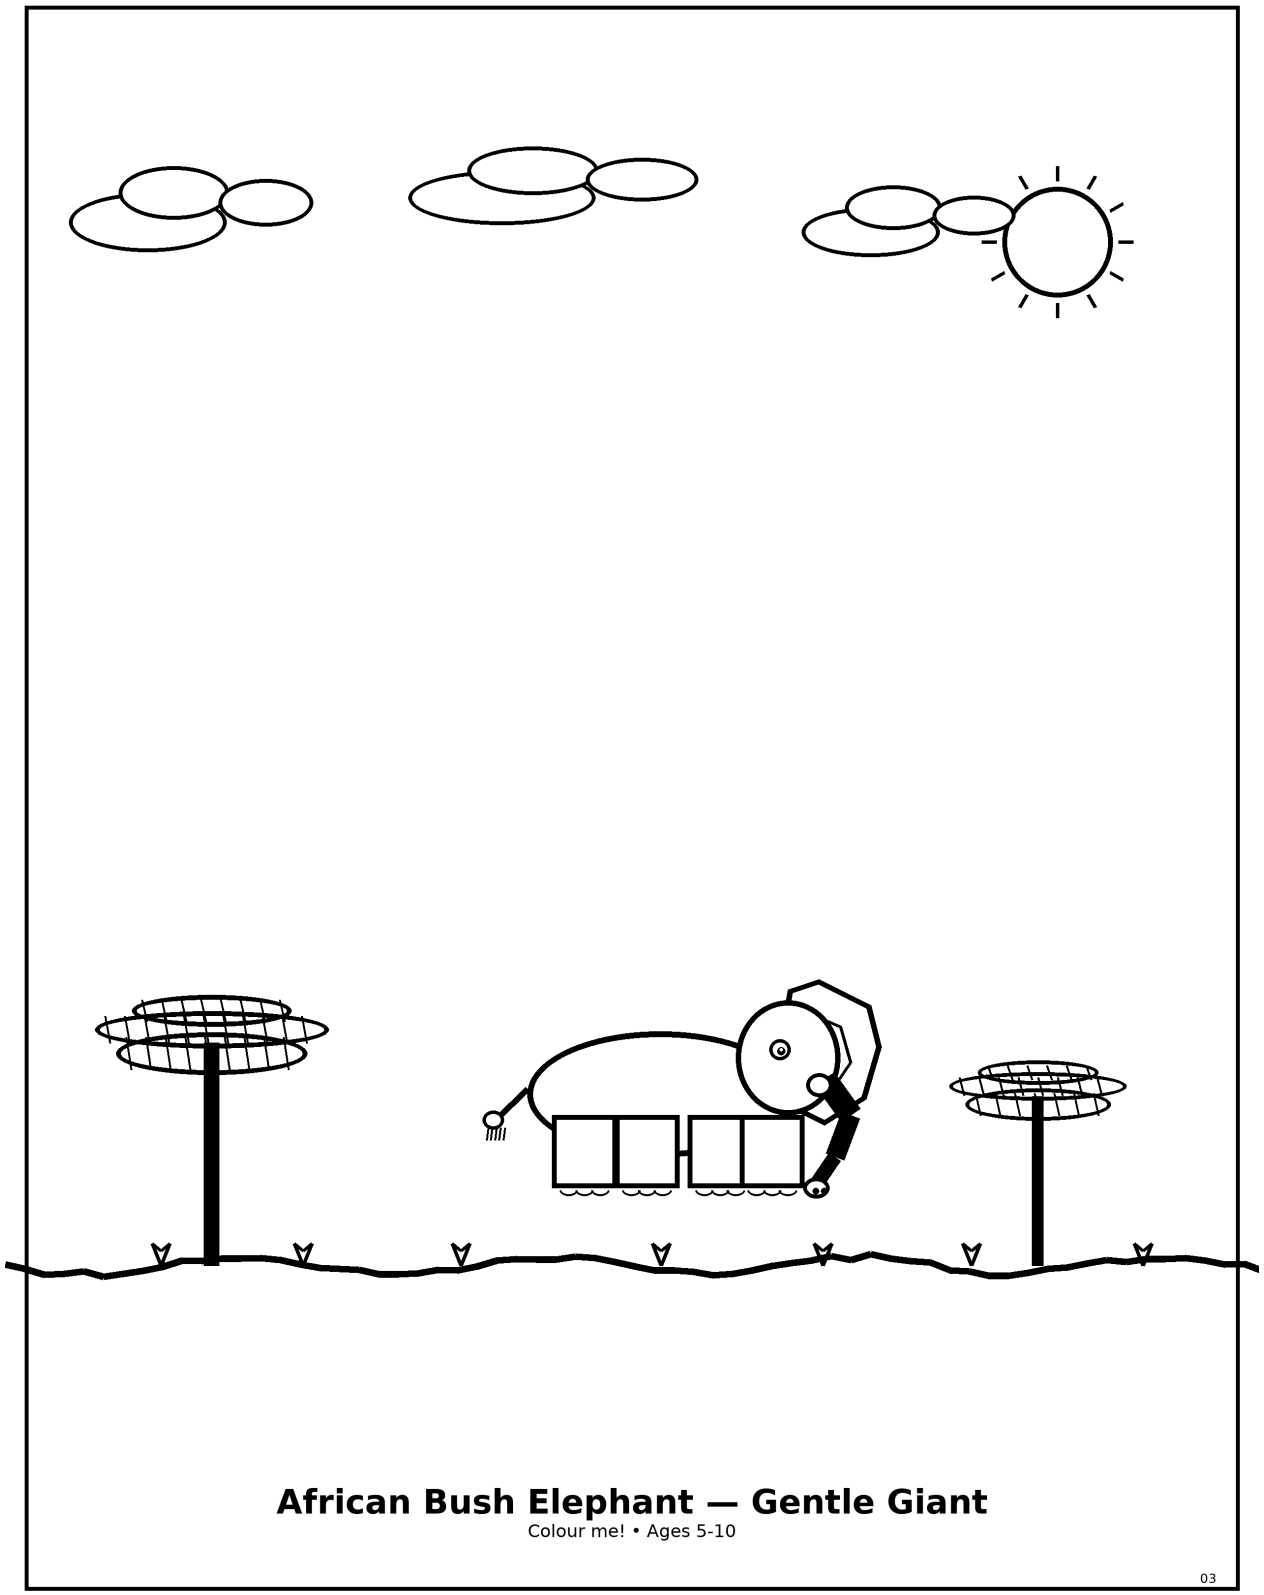

Colour me! • Ages 5-10

02

Panthera pardus — Secretive and strong; it drags prey into trees to keep it safe. Found from forest to desert.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

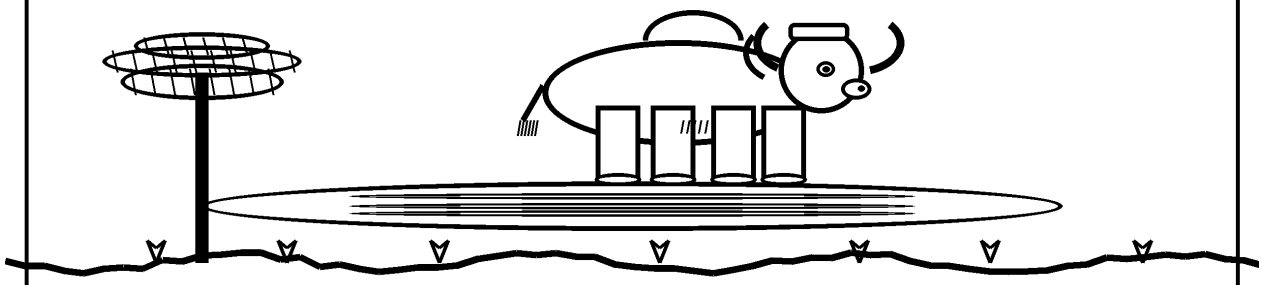

3. African Bush Elephant — Gentle Giant

Loxodonta africana — Largest land animal! Its big ears work like fans to stay cool.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

4. African Buffalo — Strong Herd Member

African Buffalo — Strong Herd Member

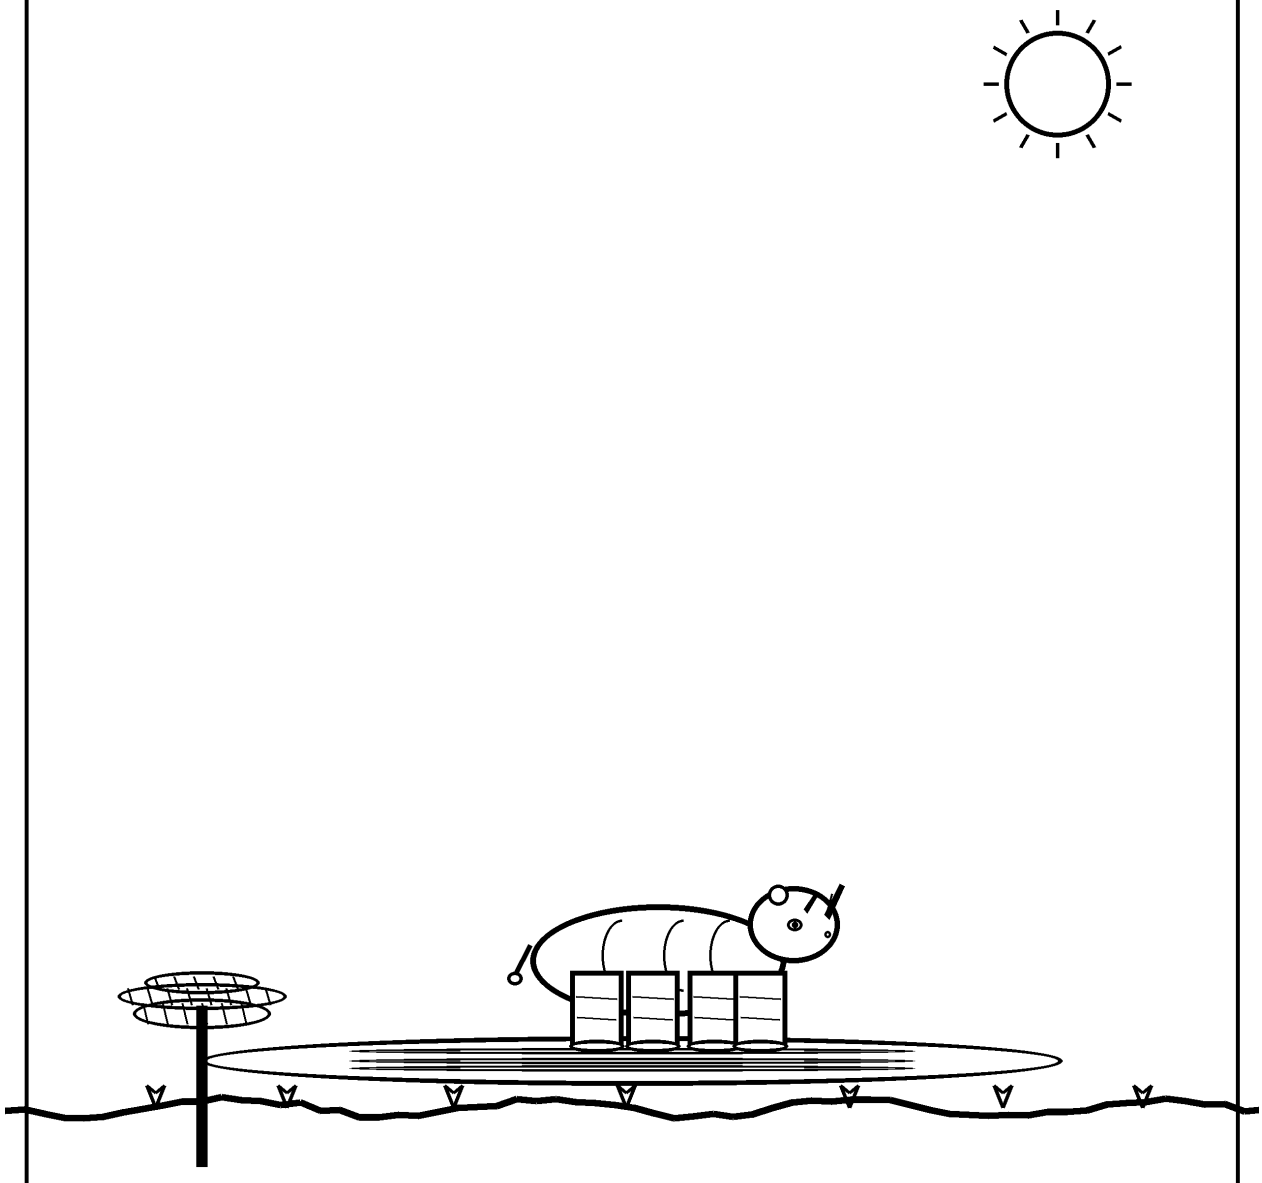

Colour me! • Ages 5-10

04

Syncerus caffer — Lives in herds of hundreds; its horns form a thick 'boss' on its head.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

5. White Rhinoceros — Horned Grazer

White Rhinoceros — Horned Grazer

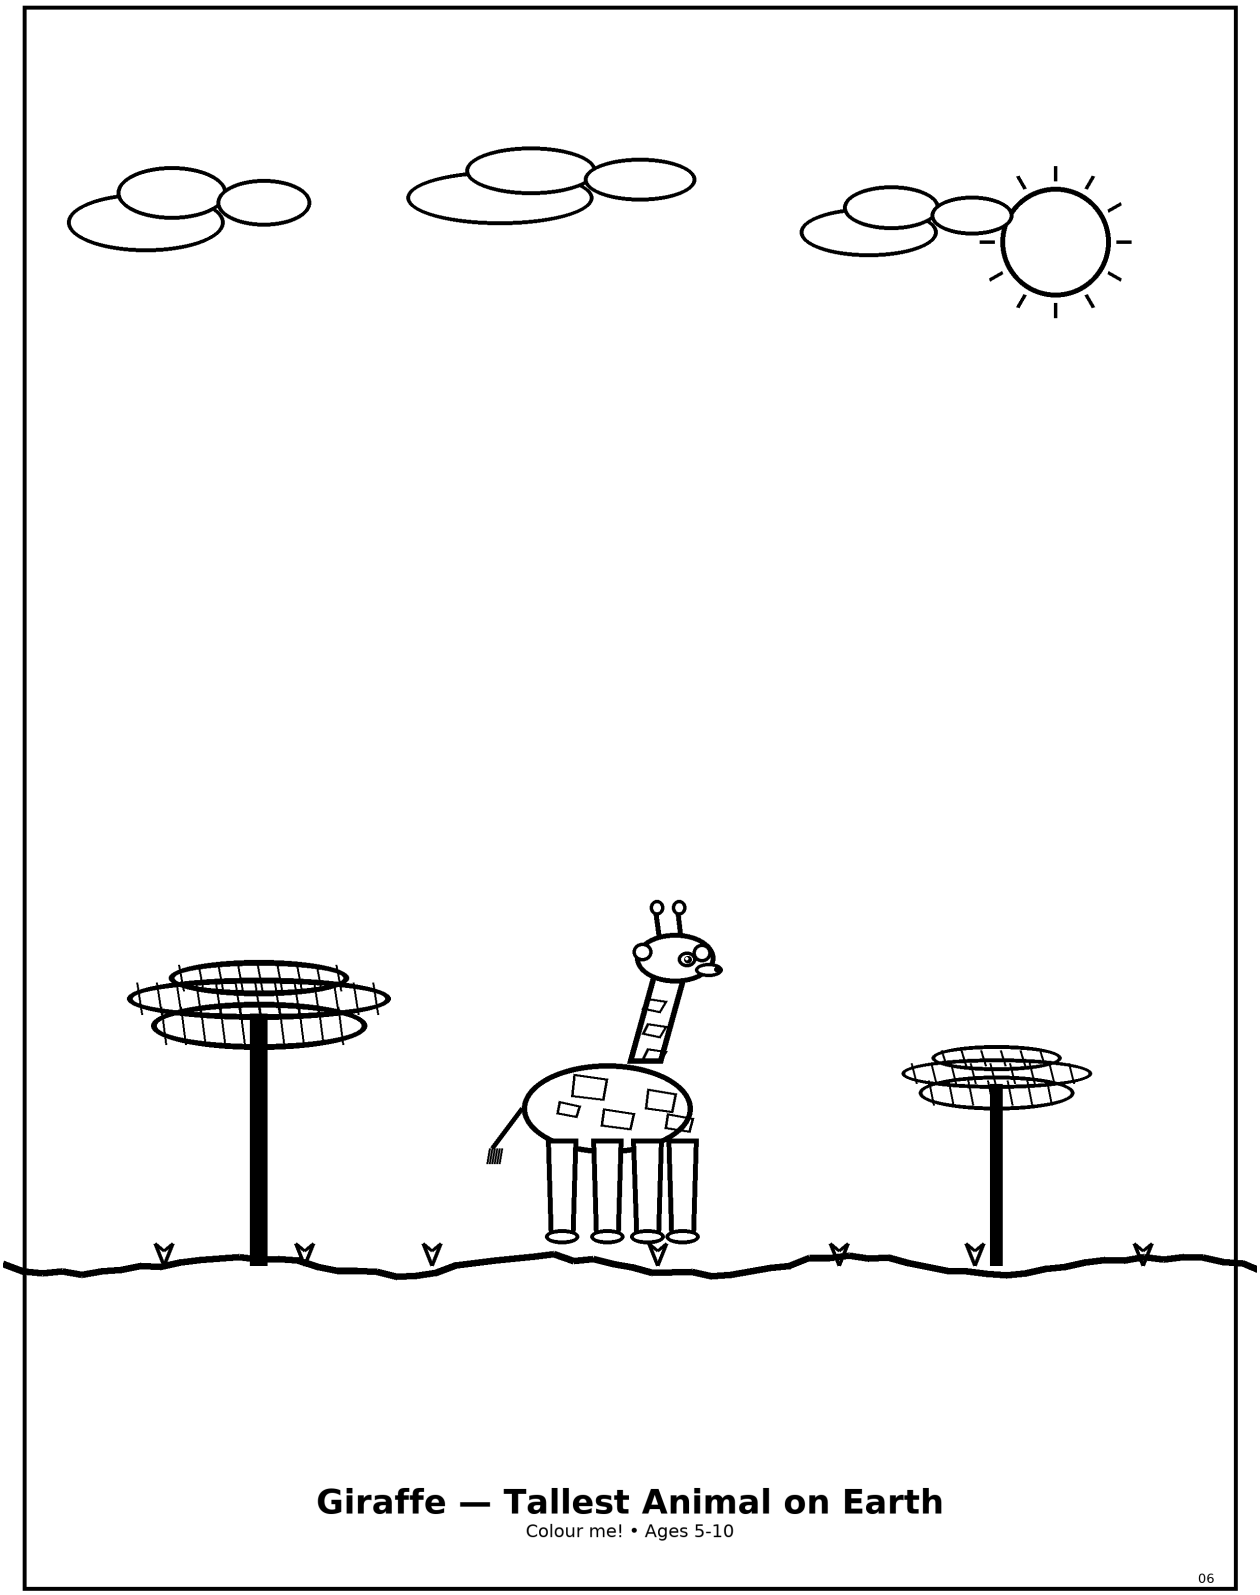

Colour me! • Ages 5-10

05

Ceratotherium simum — The second-largest land mammal. Its wide mouth is perfect for grazing grass.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

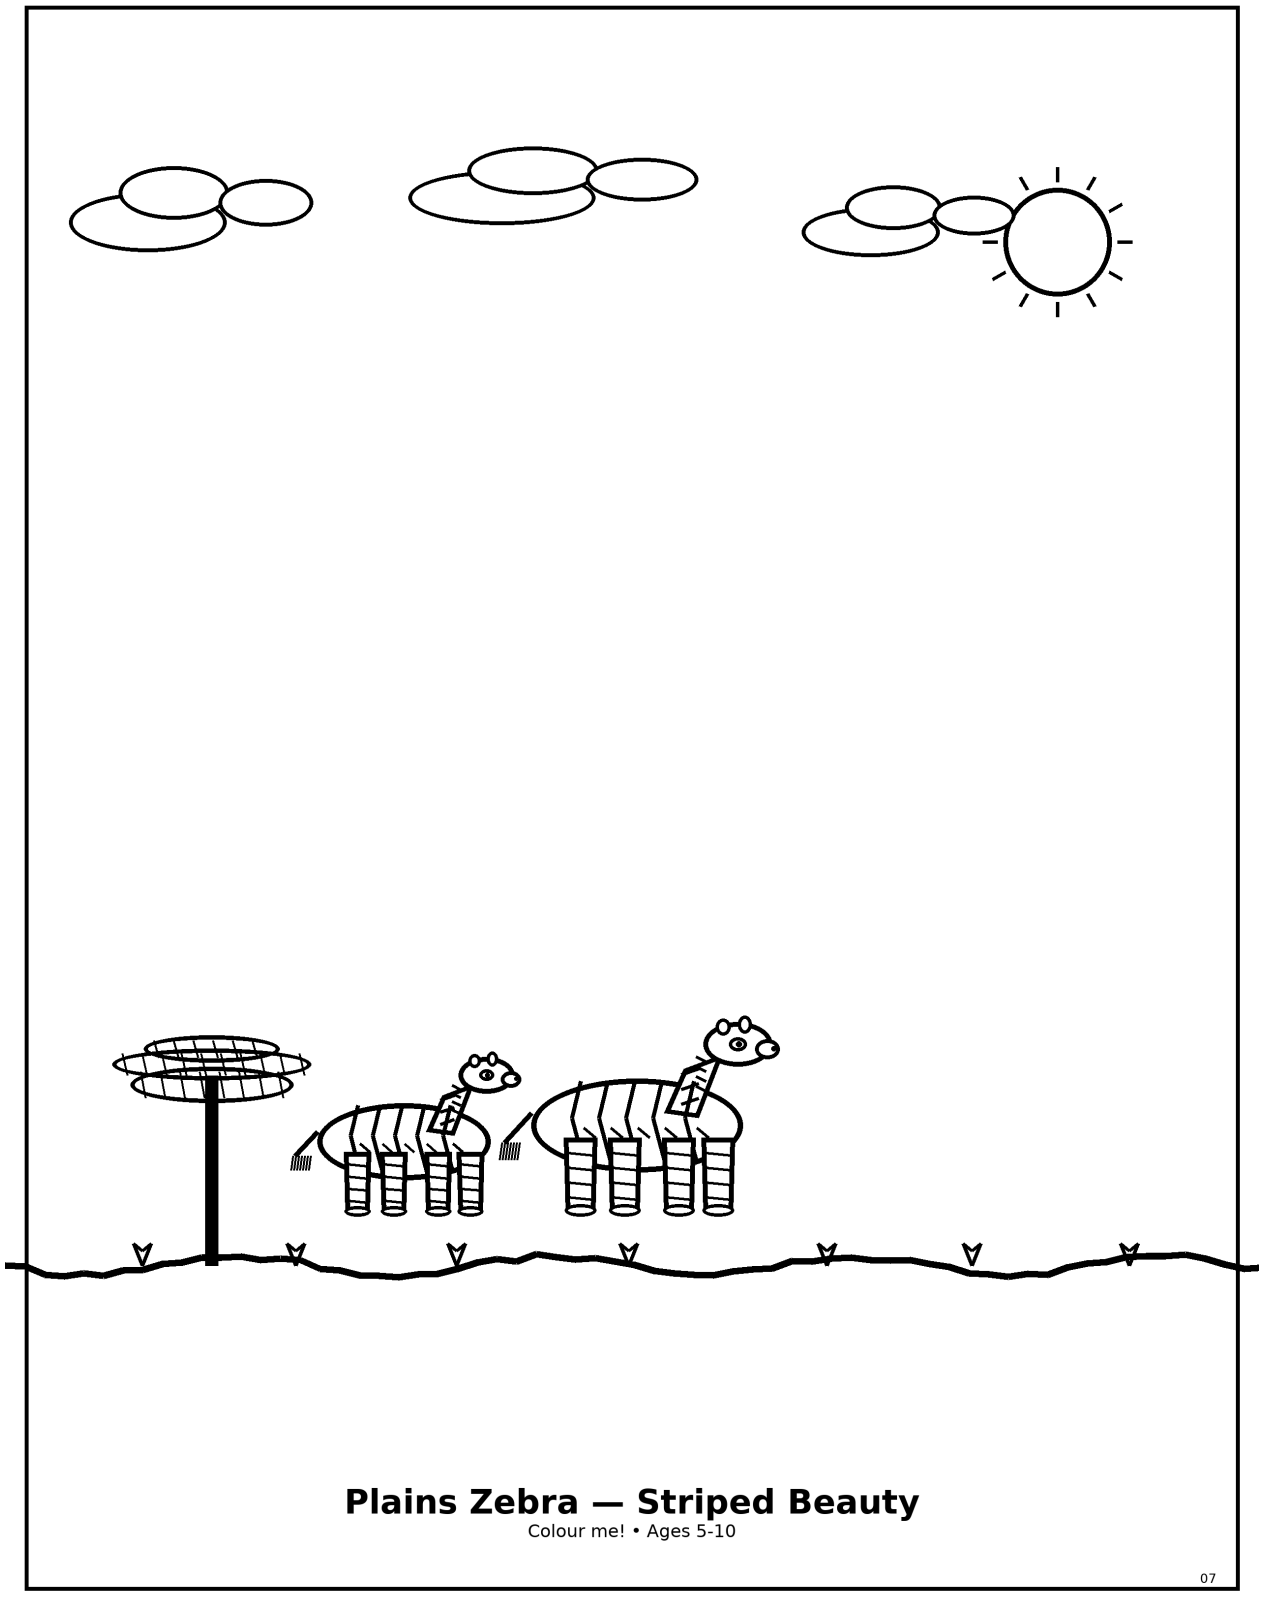

6. Giraffe — Tallest Animal on Earth

Giraffa spp. — Up to 5.5 m tall! Its long neck helps reach acacia leaves; each coat pattern is unique.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

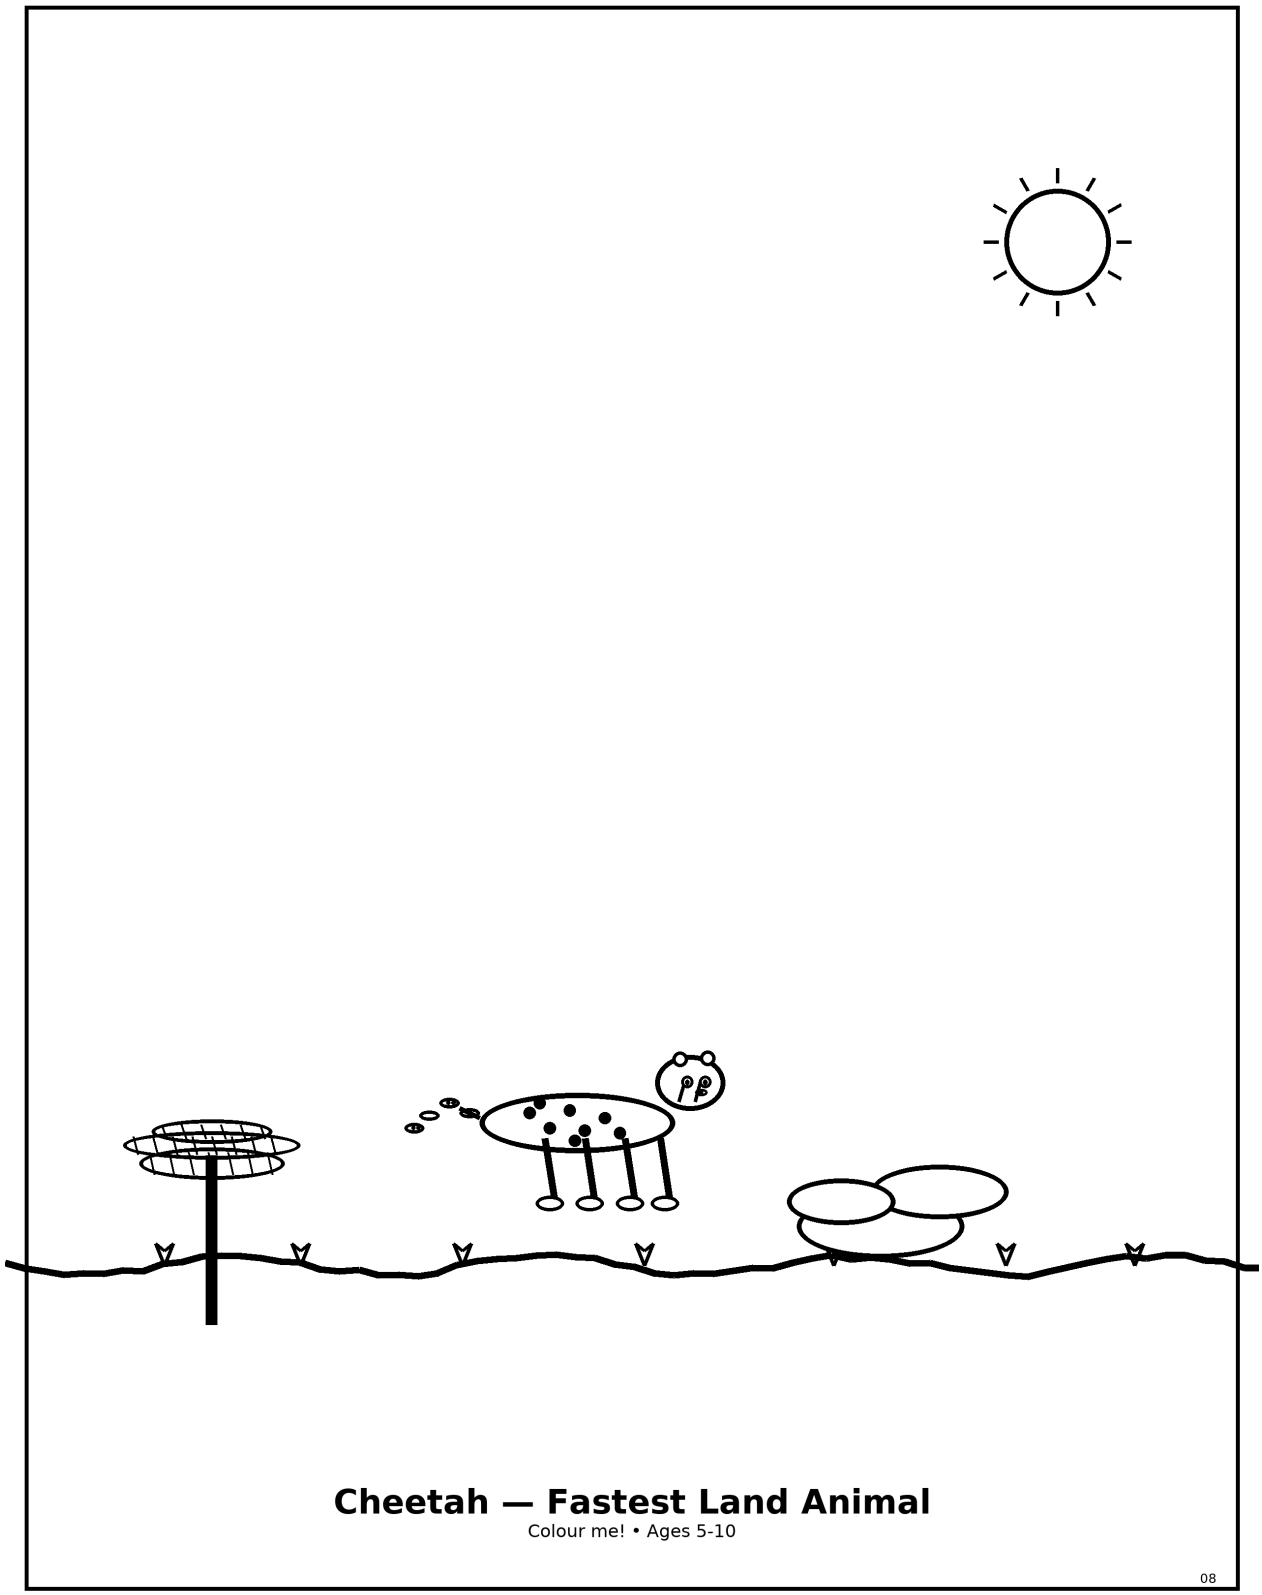

7. Plains Zebra — Striped Beauty

Equus quagga — Every zebra's stripes are one-of-a-kind, like human fingerprints. They live in family groups.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

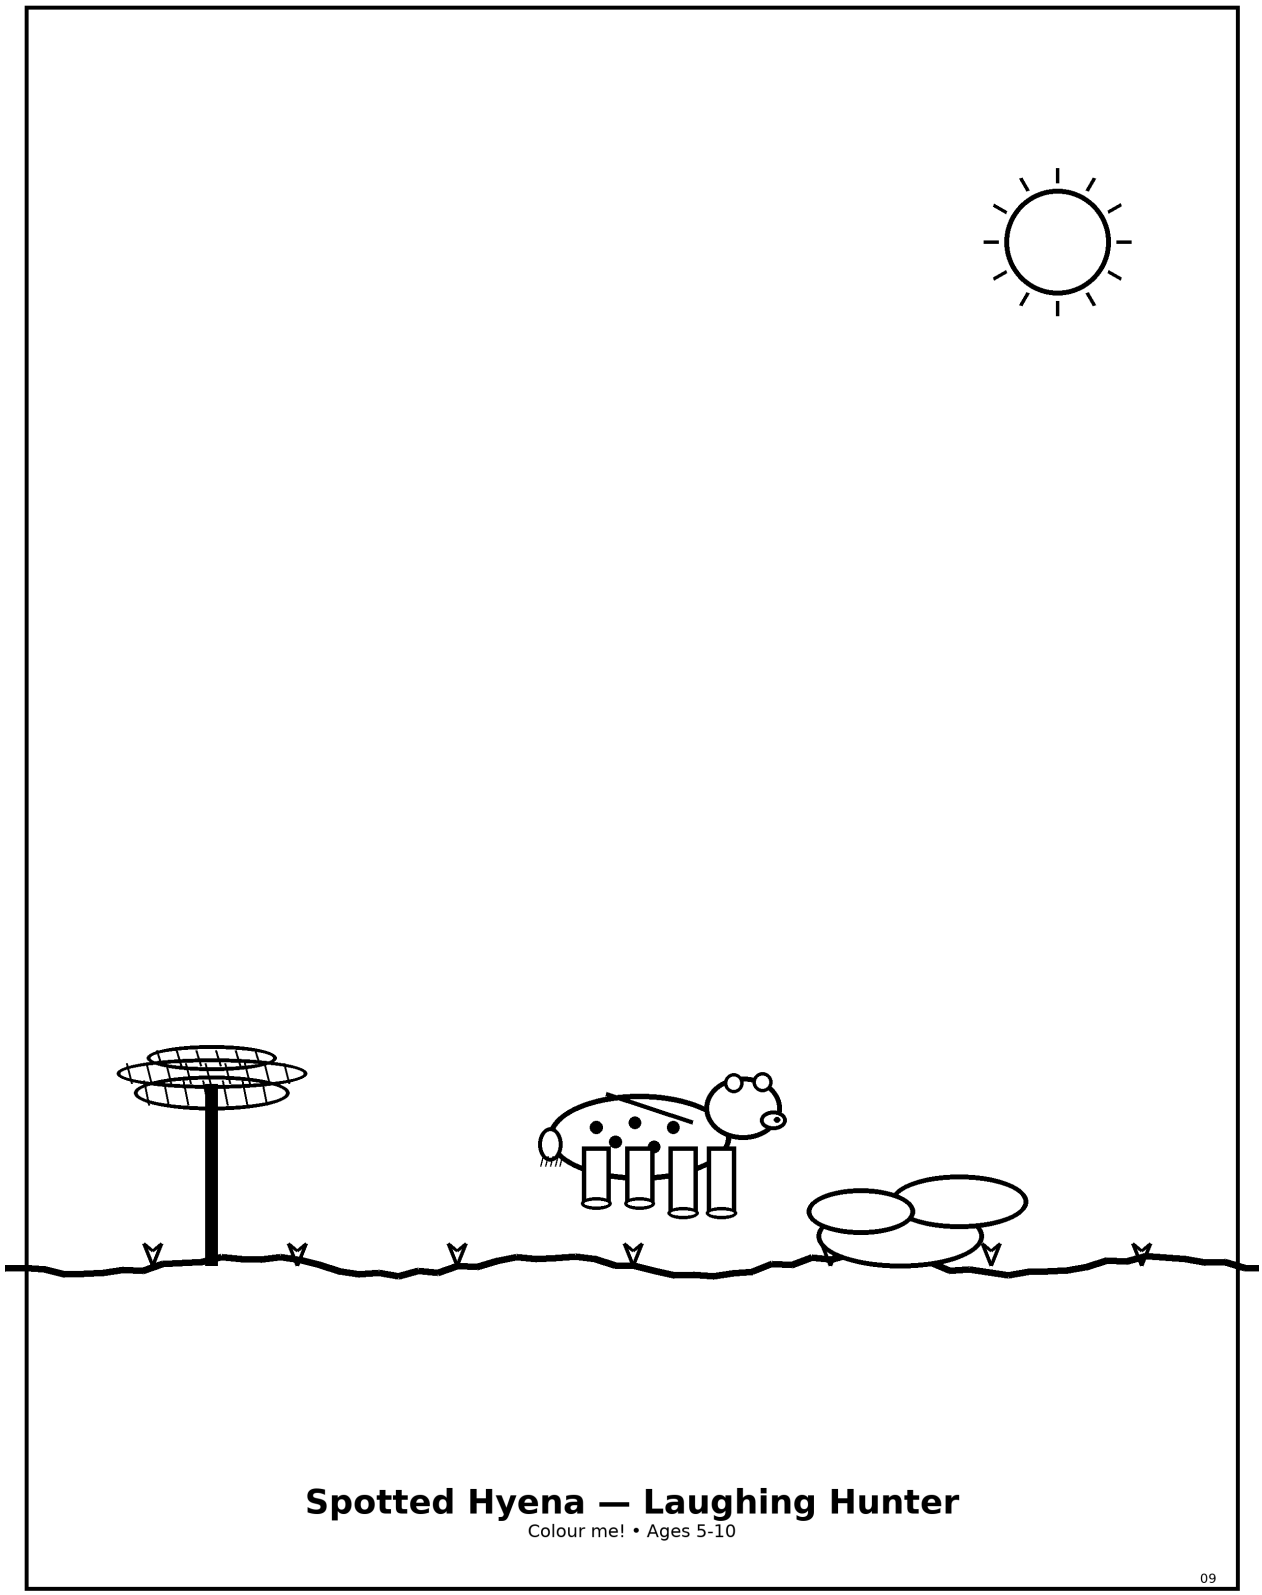

8. Cheetah — Fastest Land Animal

Acinonyx jubatus — Can reach 100 km/h in seconds! Its tear-lines reduce sun glare while hunting.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

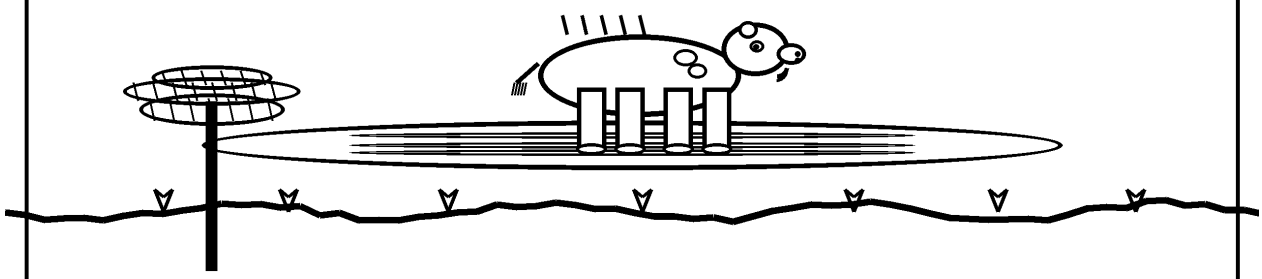

9. Spotted Hyena — Laughing Hunter

Crocuta crocuta — Not just a scavenger — a skilled hunter that lives in clans led by females.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

10. Warthog — Tusks and Warts

Warthog — Tusks and Warts

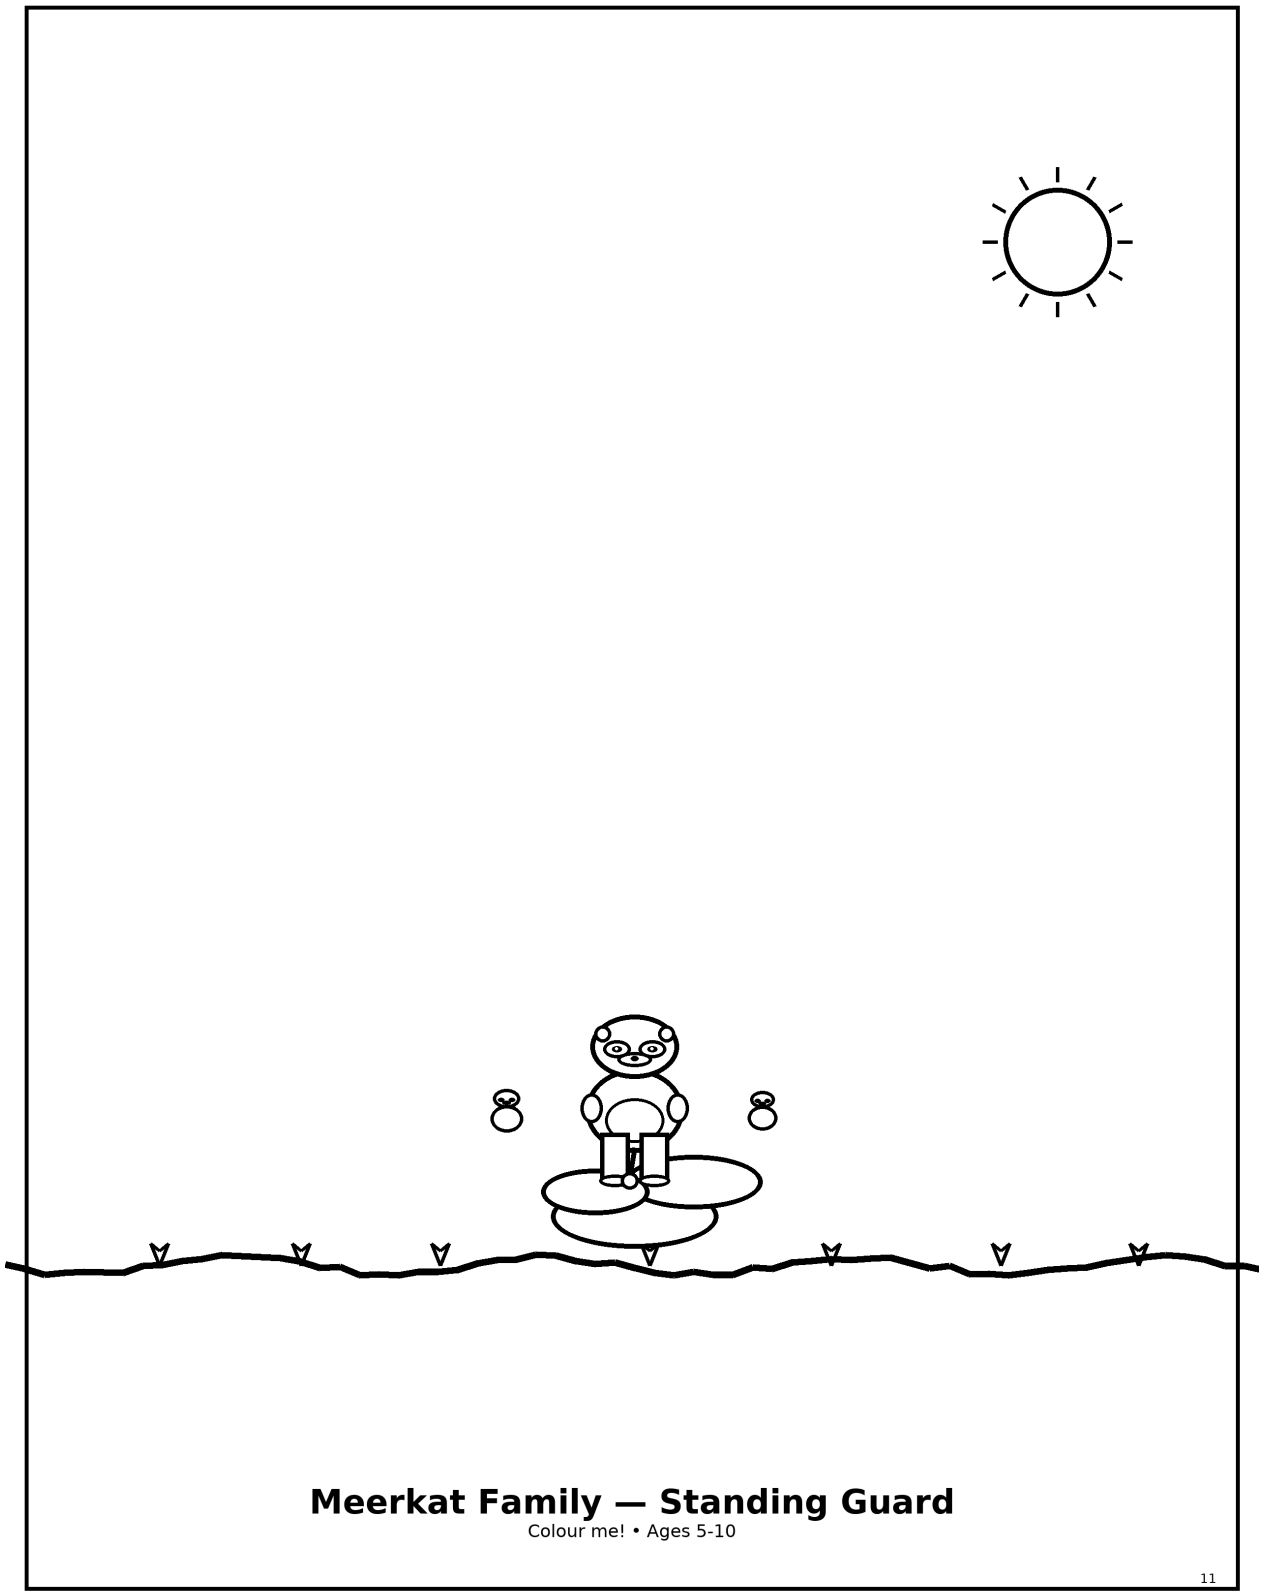

Colour me! • Ages 5-10

10

Phacochoerus africanus — Its tusks are elongated canine teeth; warts are thick skin pads for protection.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

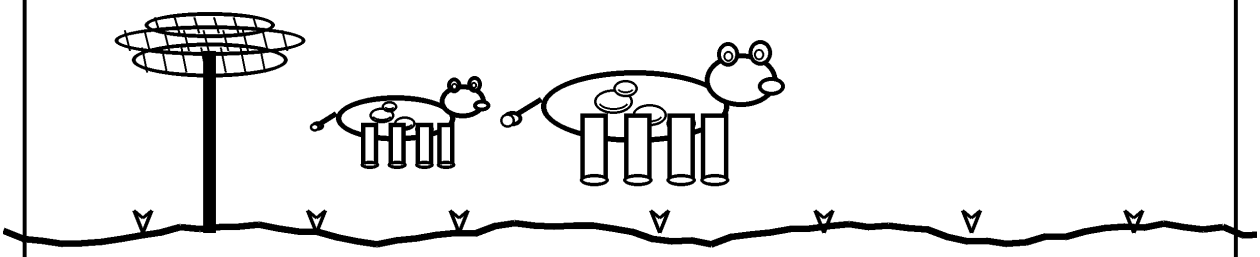

11. Meerkat Family — Standing Guard

Suricata suricatta — Lives in Kalahari Desert mobs; one stands guard while others forage.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

12. African Wild Dog — Painted Pack

African Wild Dog — Painted Pack

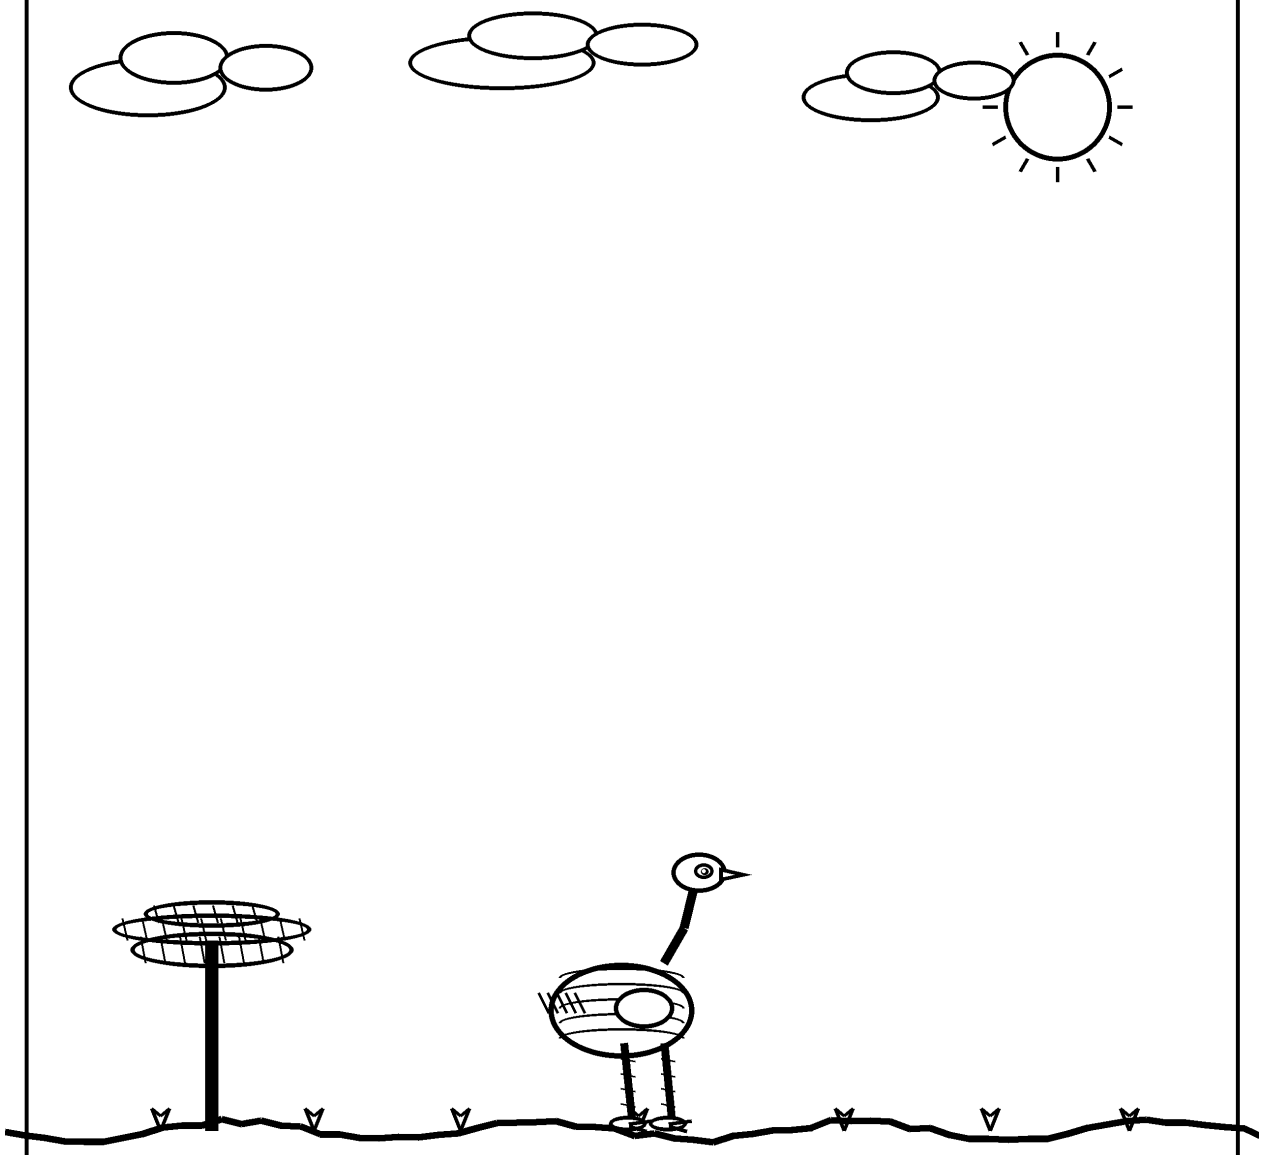

Colour me! • Ages 5-10

12

Lycaon pictus — Also called painted dog; each coat is patchy and unique. An endangered, cooperative hunter.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

13. Ostrich — Giant Flightless Bird

Ostrich — Giant Flightless Bird

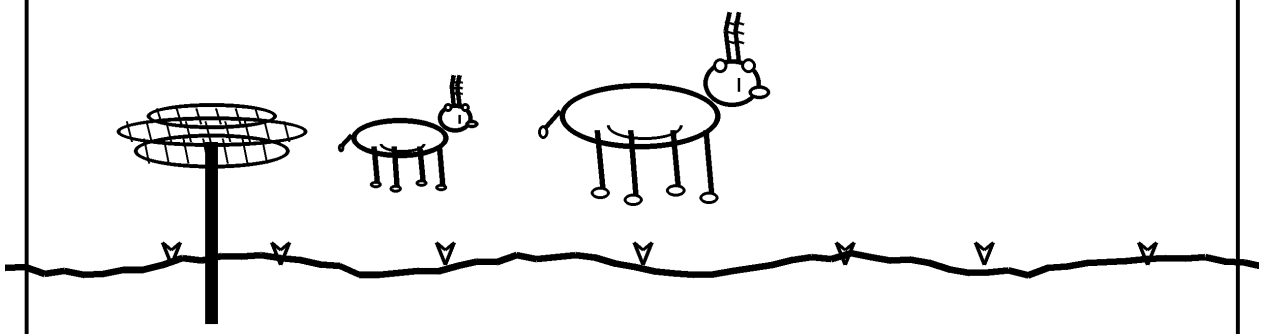

Colour me! • Ages 5-10

13

Struthio camelus — World's largest bird; it cannot fly but can sprint at 70 km/h!

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

14. Impala — Graceful Leaper

Impala — Graceful Leaper

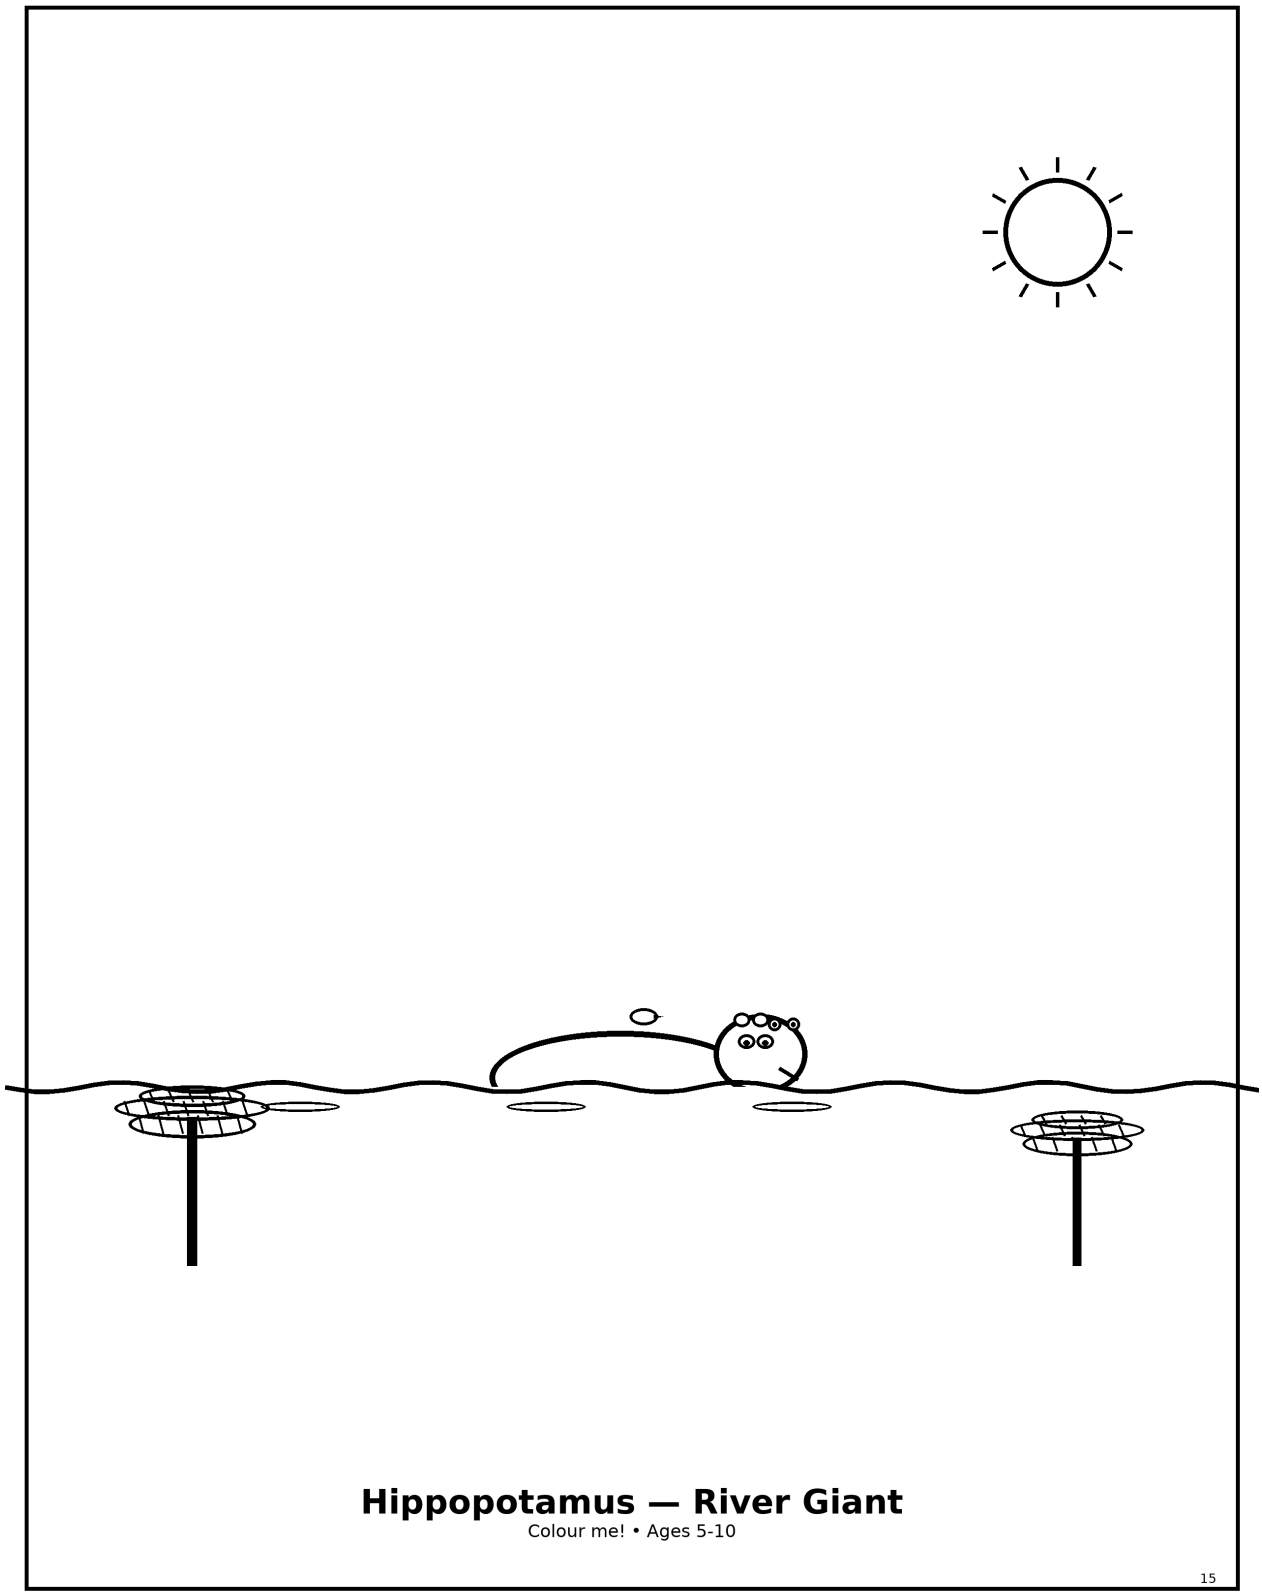

Colour me! • Ages 5-10

14

Aepyceros melampus — Famous for leaps up to 3 m high and 10 m long to escape predators.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

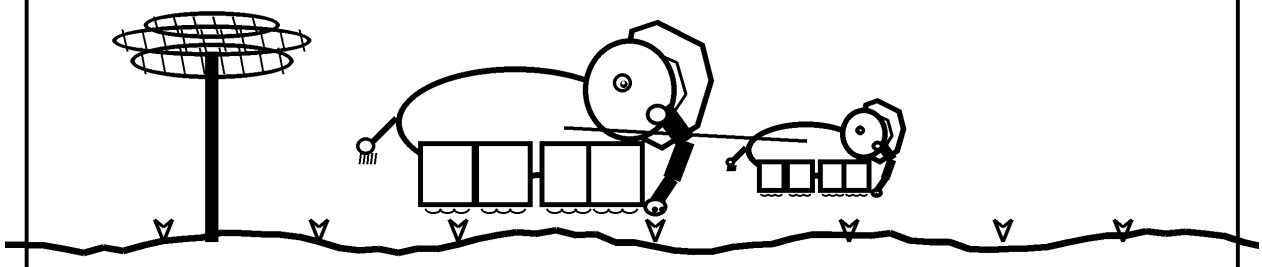

15. Hippopotamus — River Giant

Hippopotamus amphibius — Spends days in water to stay cool; grazes on grass at night.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

16. Elephant Calf with Mother

Elephant Mother and Calf Walking Together

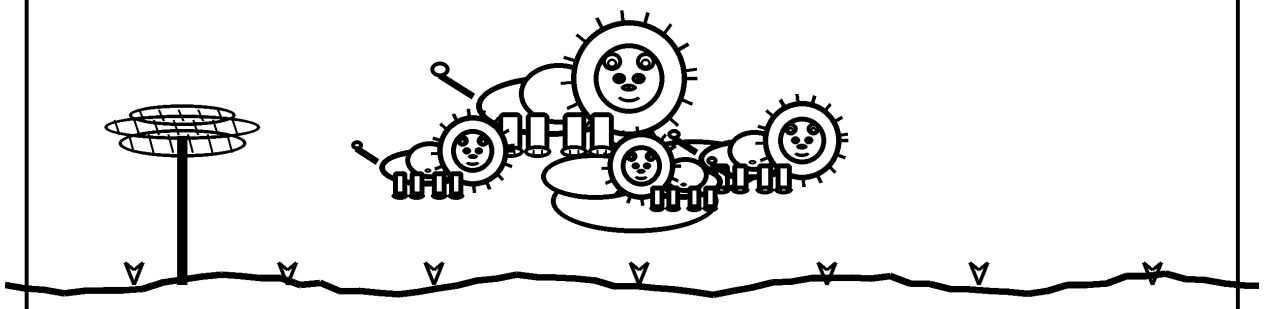

Colour me! • Ages 5-10

16

Calves walk close to mothers for up to 10 years, learning the herd's trails and watering holes.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

17. Lion Cubs at Play

Lion Cubs Playing Together

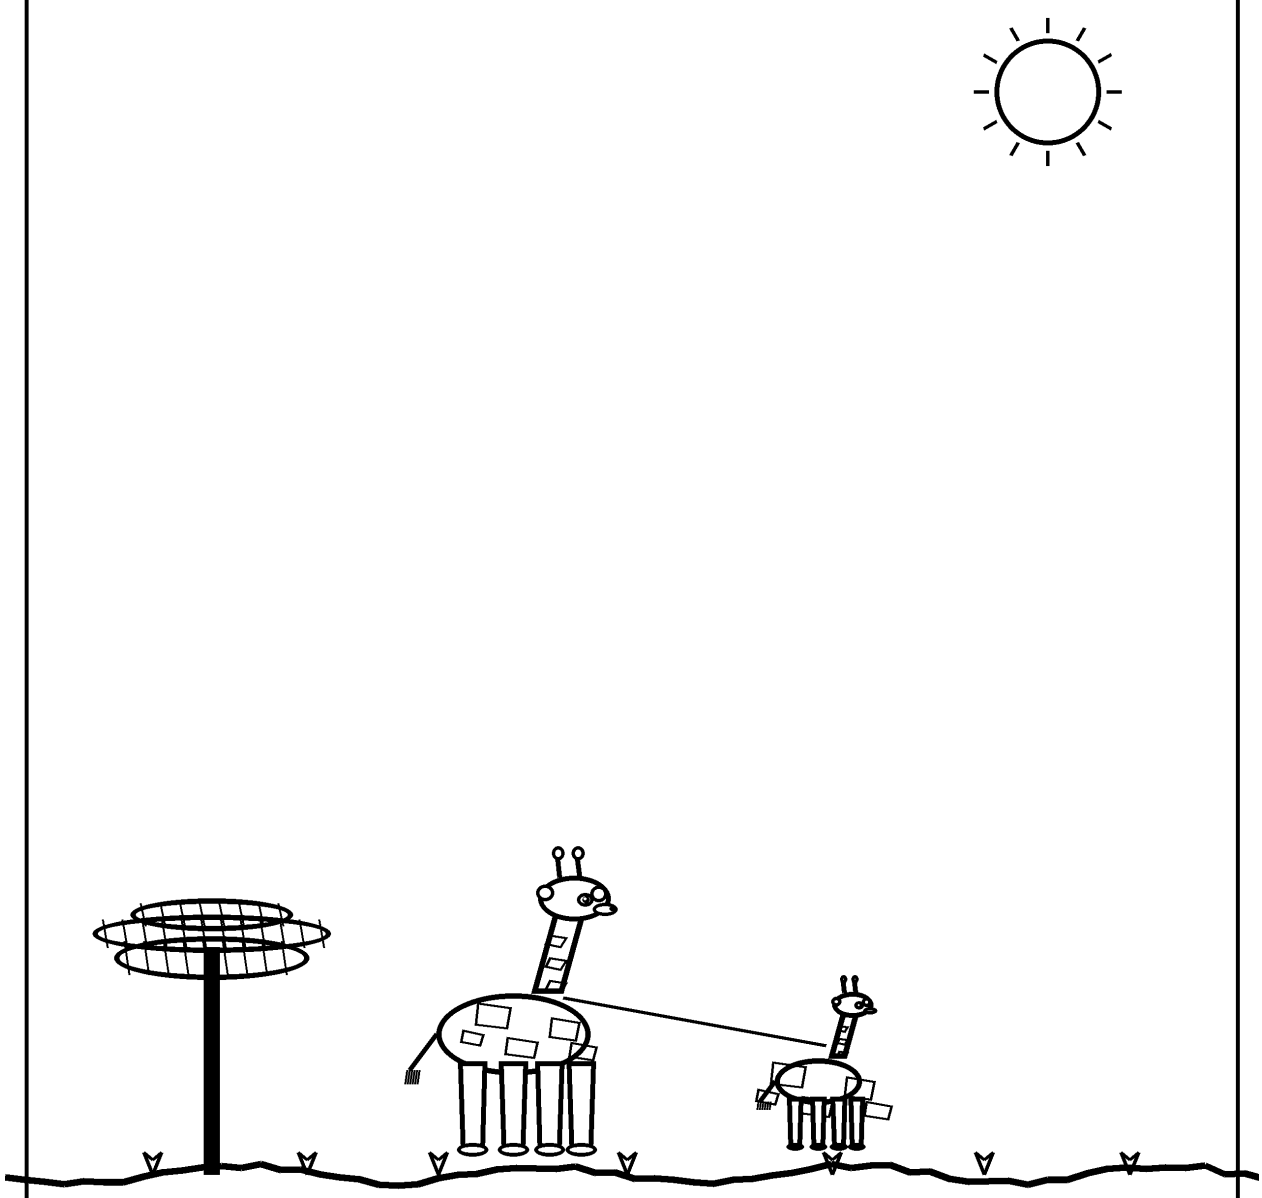

Colour me! • Ages 5-10

17

Cubs play-fight to build hunting skills; lionesses raise cubs together in a pride.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

18. Baby Giraffe with Mother

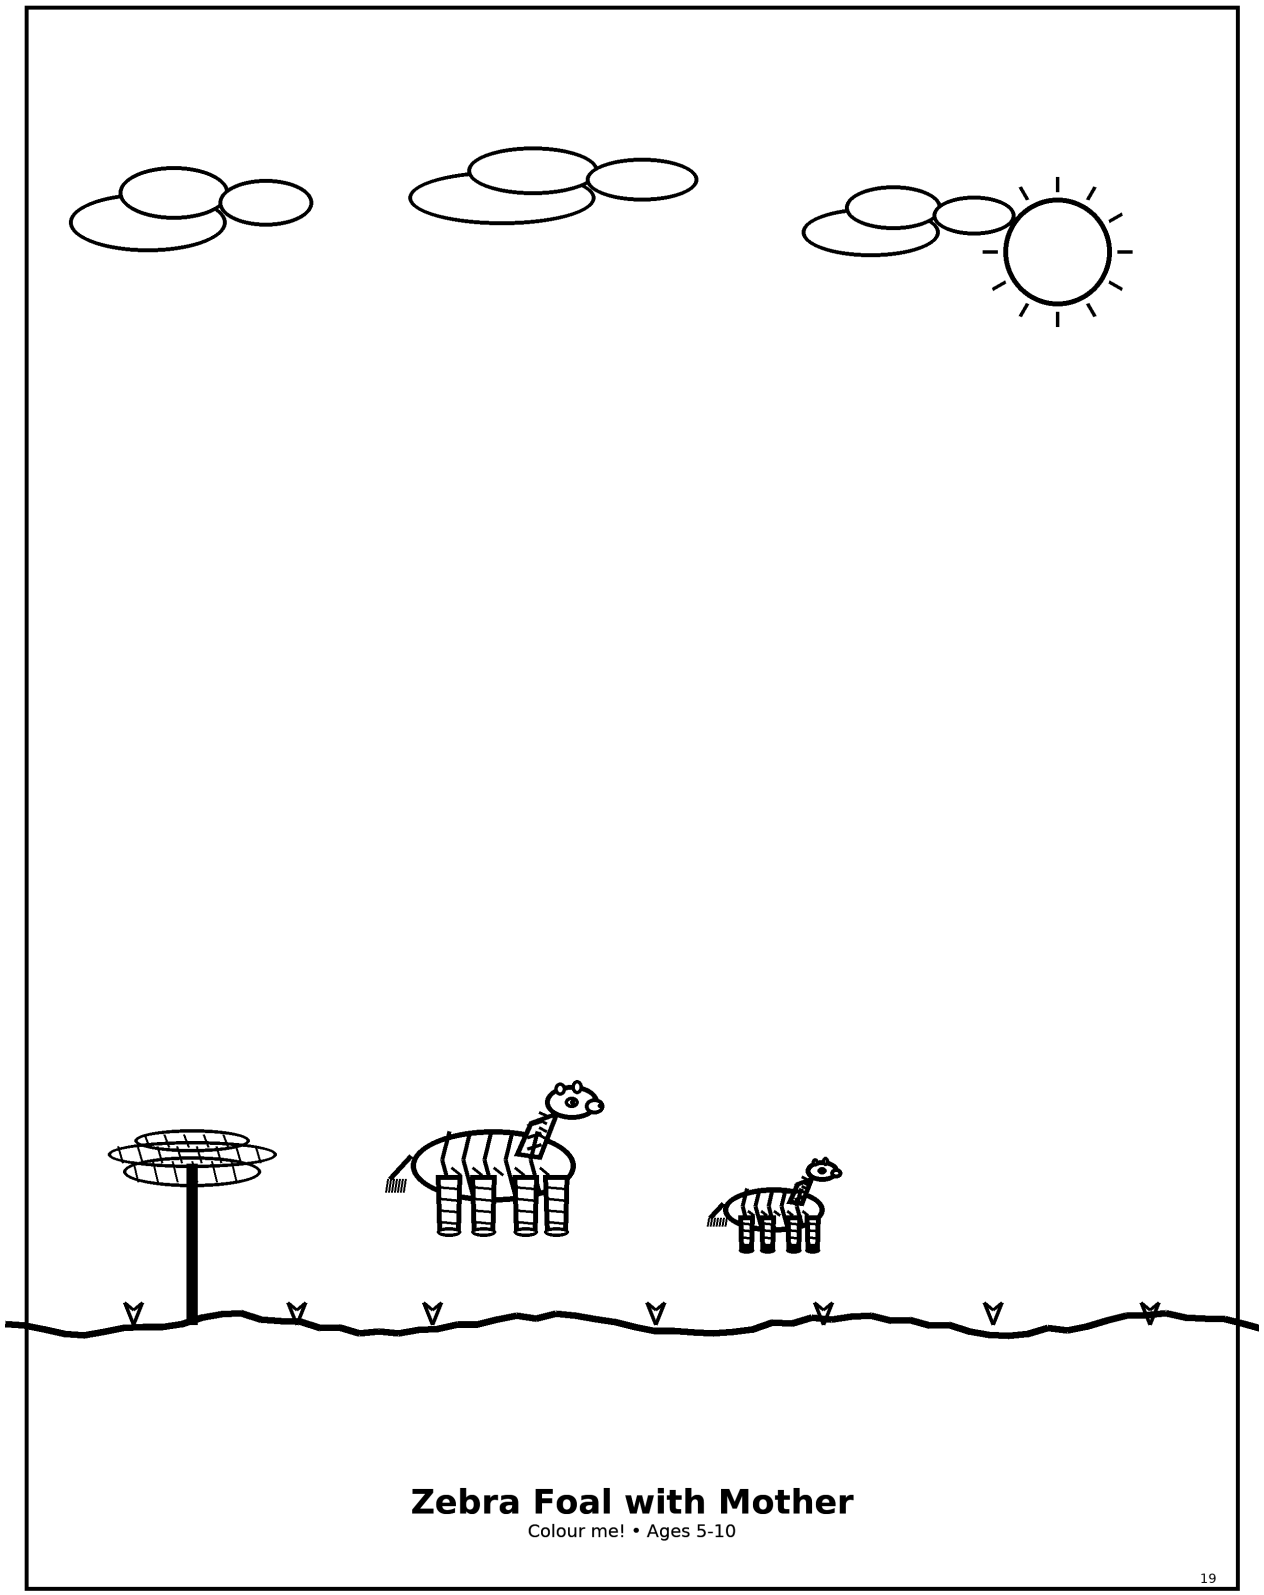

Colour me! • Ages 5-10

18

Newborn giraffes stand within 30 minutes! Babies stay near mothers for protection on the plains.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

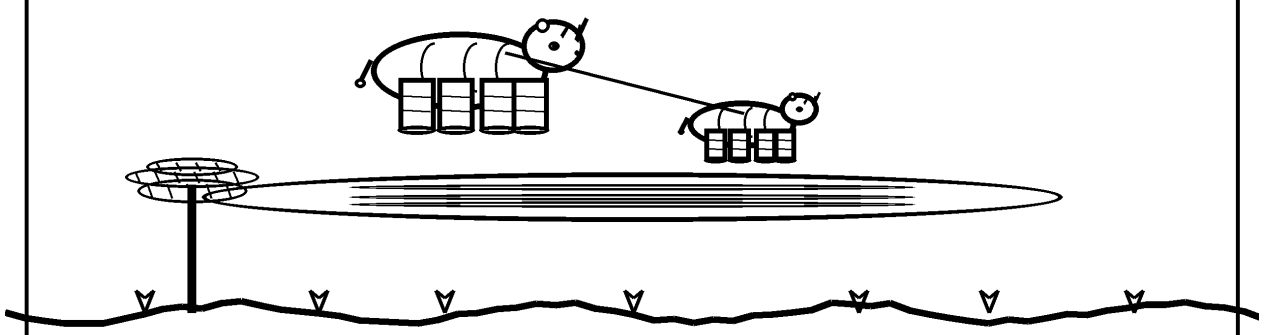

19. Zebra Foal with Mother

Foals can run an hour after birth; they imprint on their mother's stripe pattern to stay close.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

20. Baby Rhinos with Mother

Baby Rhinos with Mother — Baby Rhinoceros with Mother

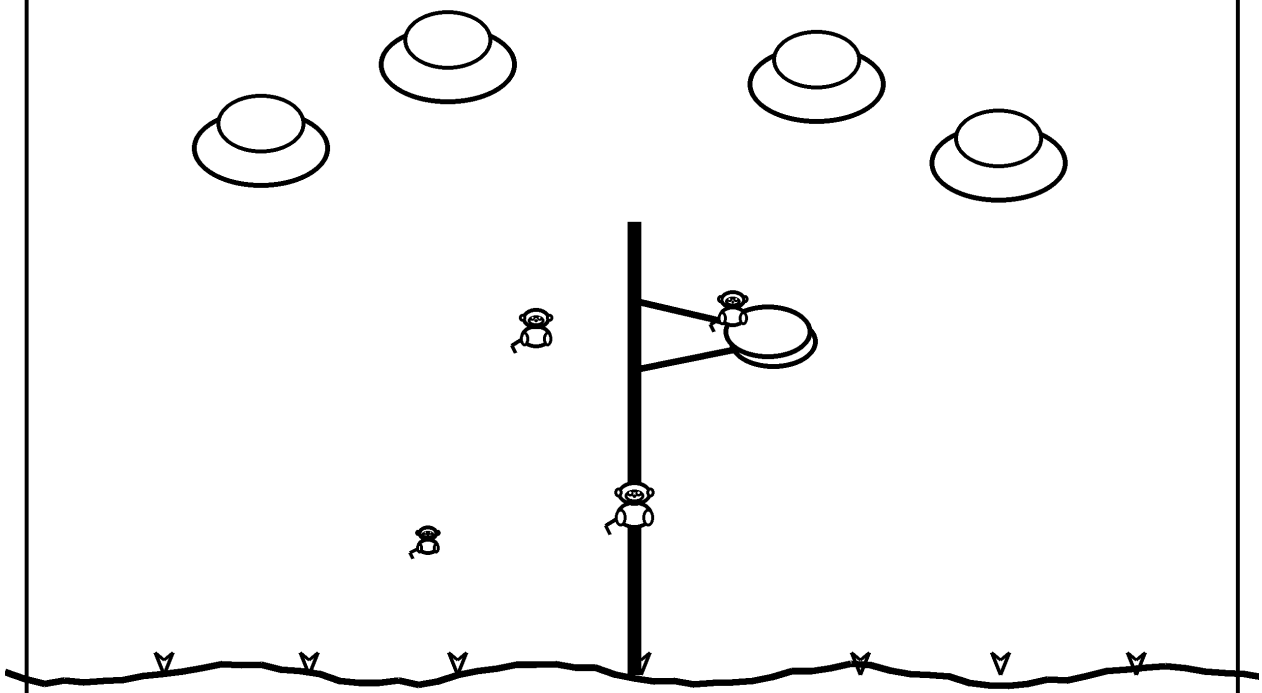

Colour me! • Ages 5-10

20

Rhino calves stay with mothers for 2–3 years; mothers are very protective.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

21. Vervet Monkey Family

Vervet Monkey Family in the Trees

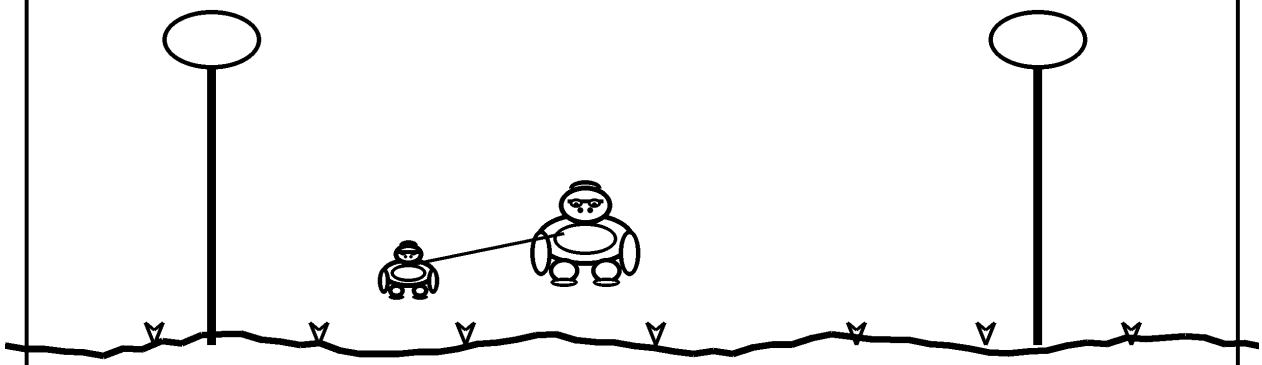

Colour me! • Ages 5-10

21

Chlorocebus pygerythrus — Vervet monkeys live in troops of 10–50, grooming each other to stay close.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

22. Gorilla Family in the Forest

Gorilla Mother and Baby in the Forest — Gorilla Family

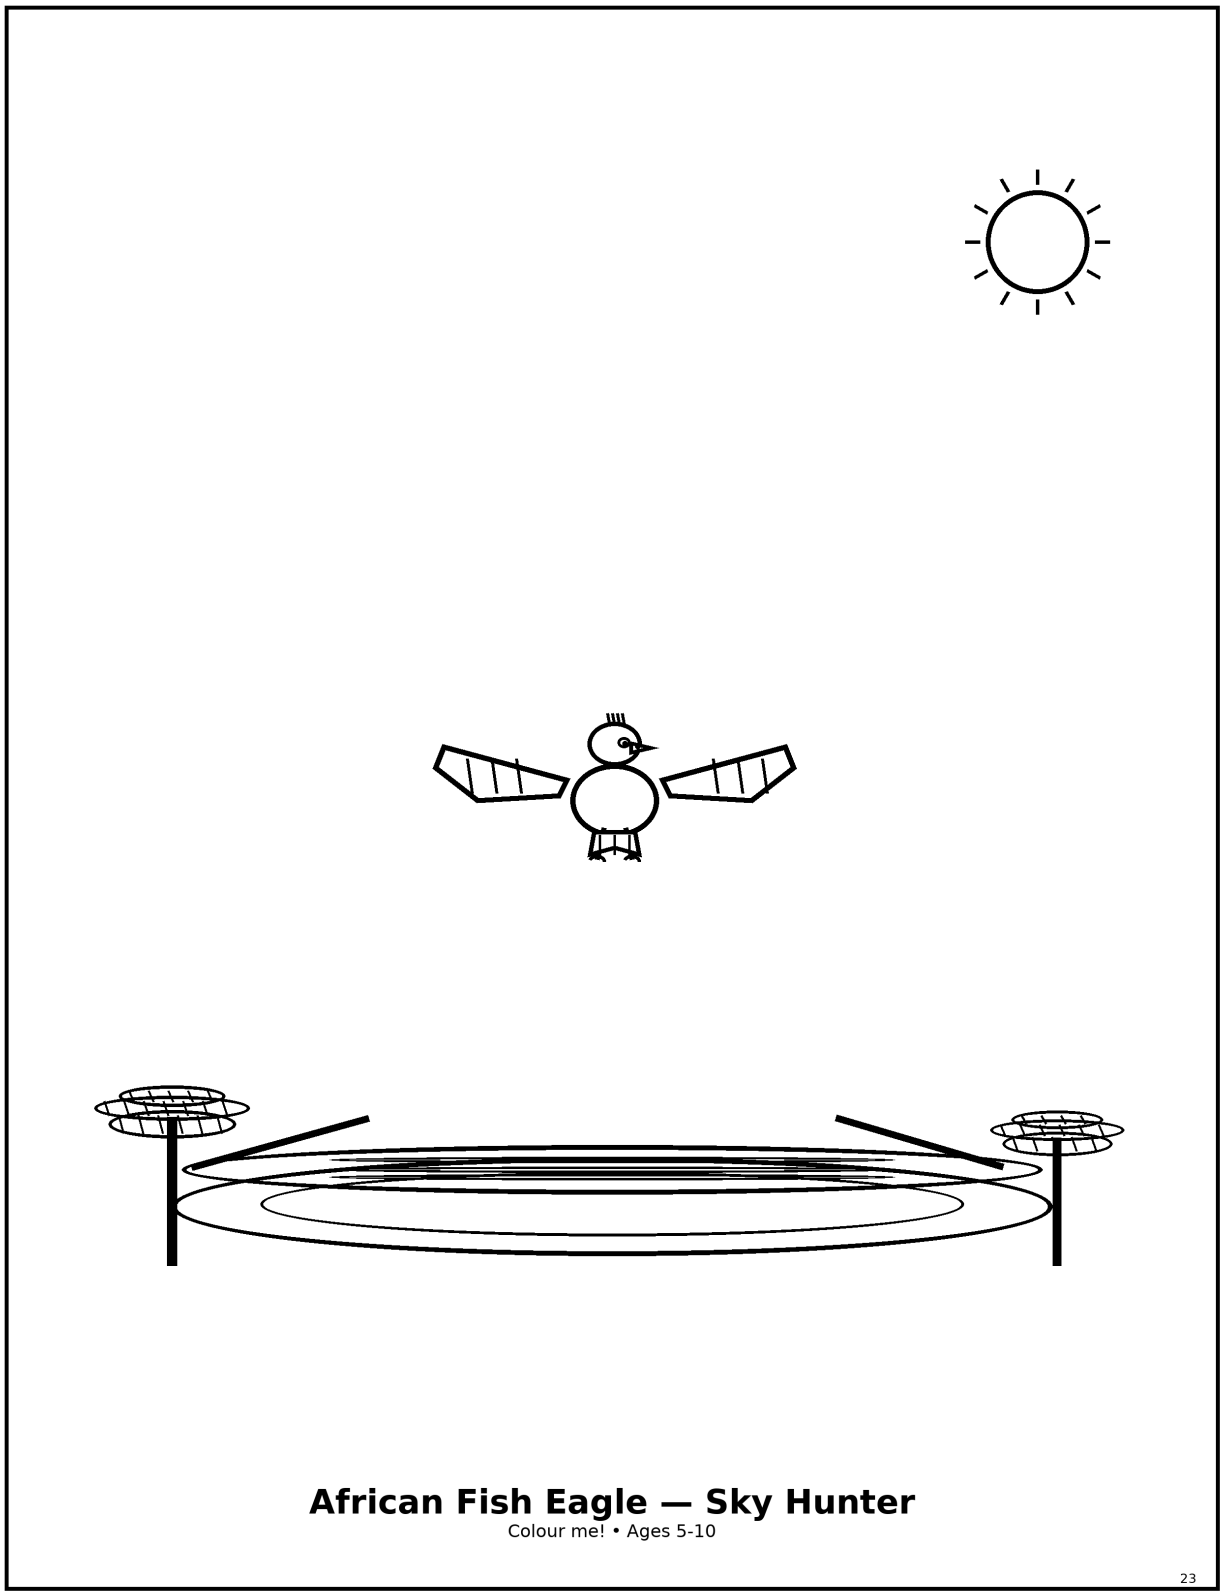

Colour me! • Ages 5-10

22

Gorilla beringei / gorilla — Gentle forest giants; families are led by a silverback and share strong bonds.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

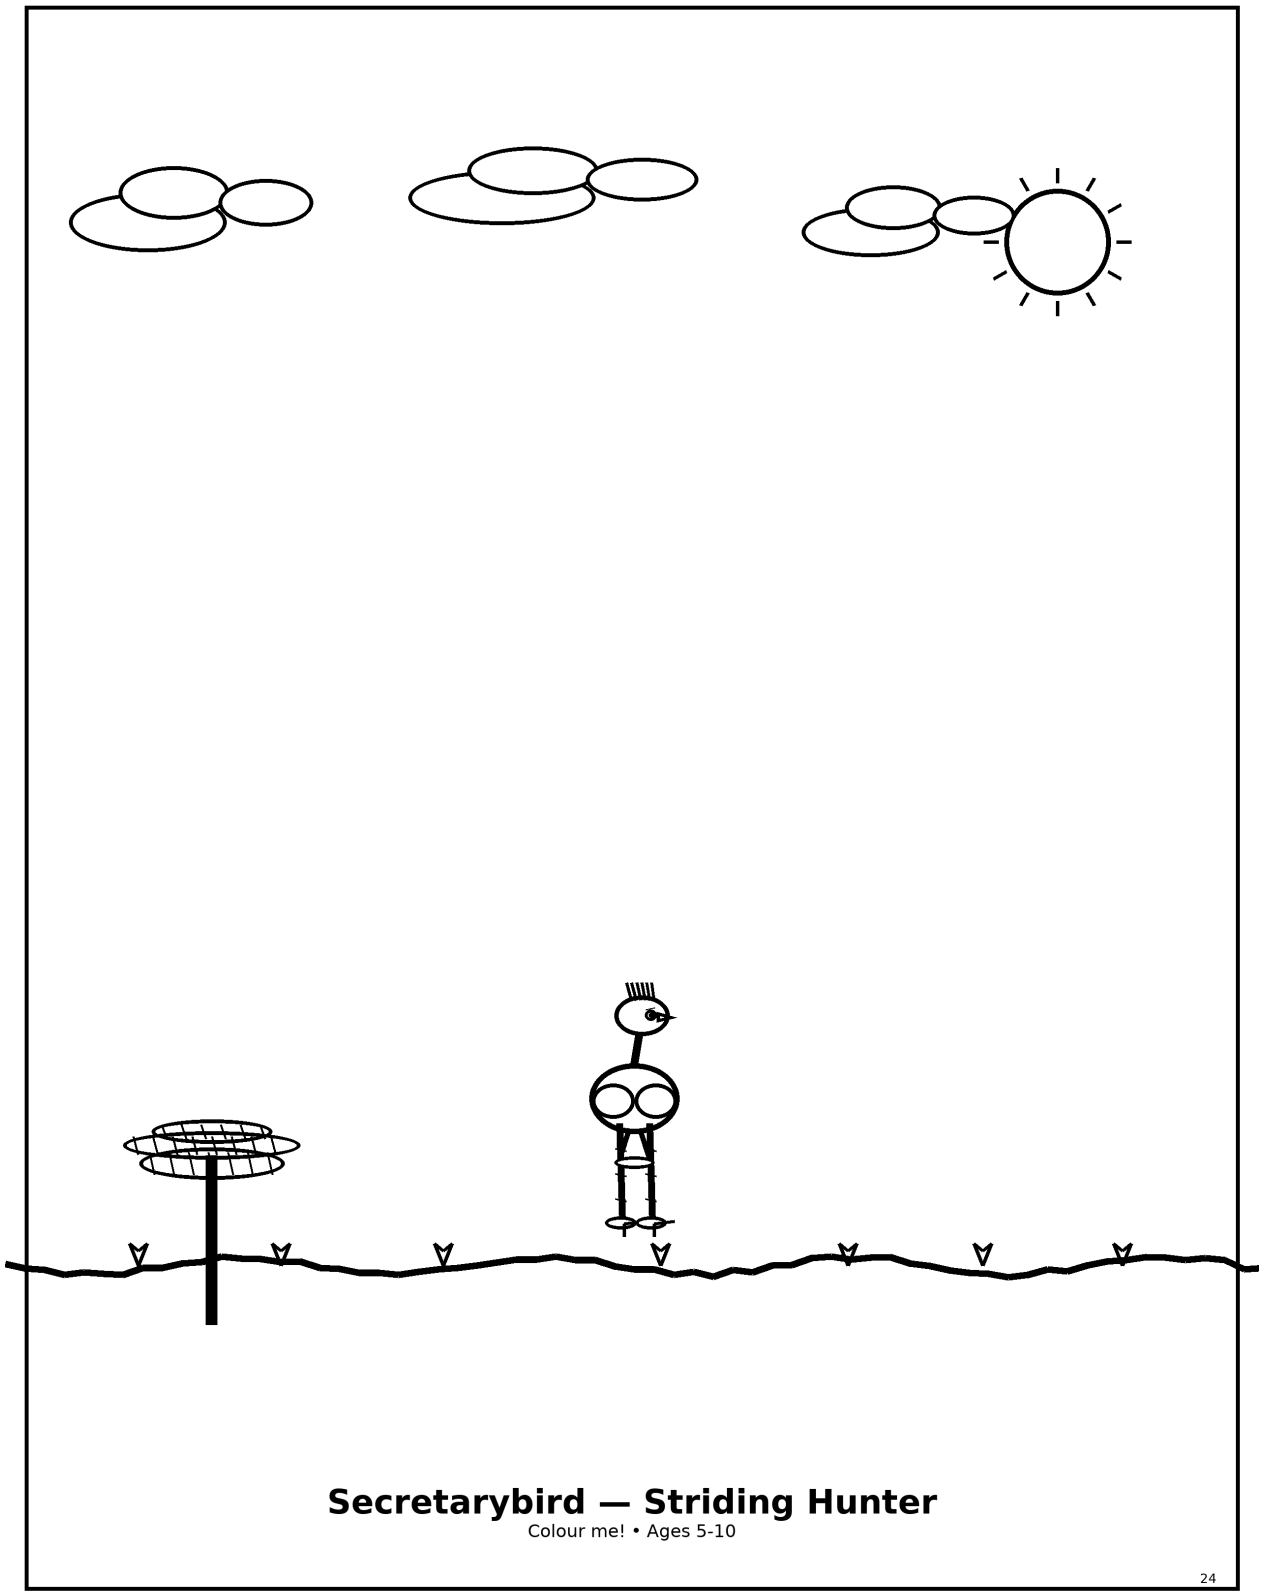

23. African Fish Eagle — Sky Hunter

Icthyophaga vocifer — Its loud call is the 'voice of Africa'; it swoops to catch fish with powerful talons.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

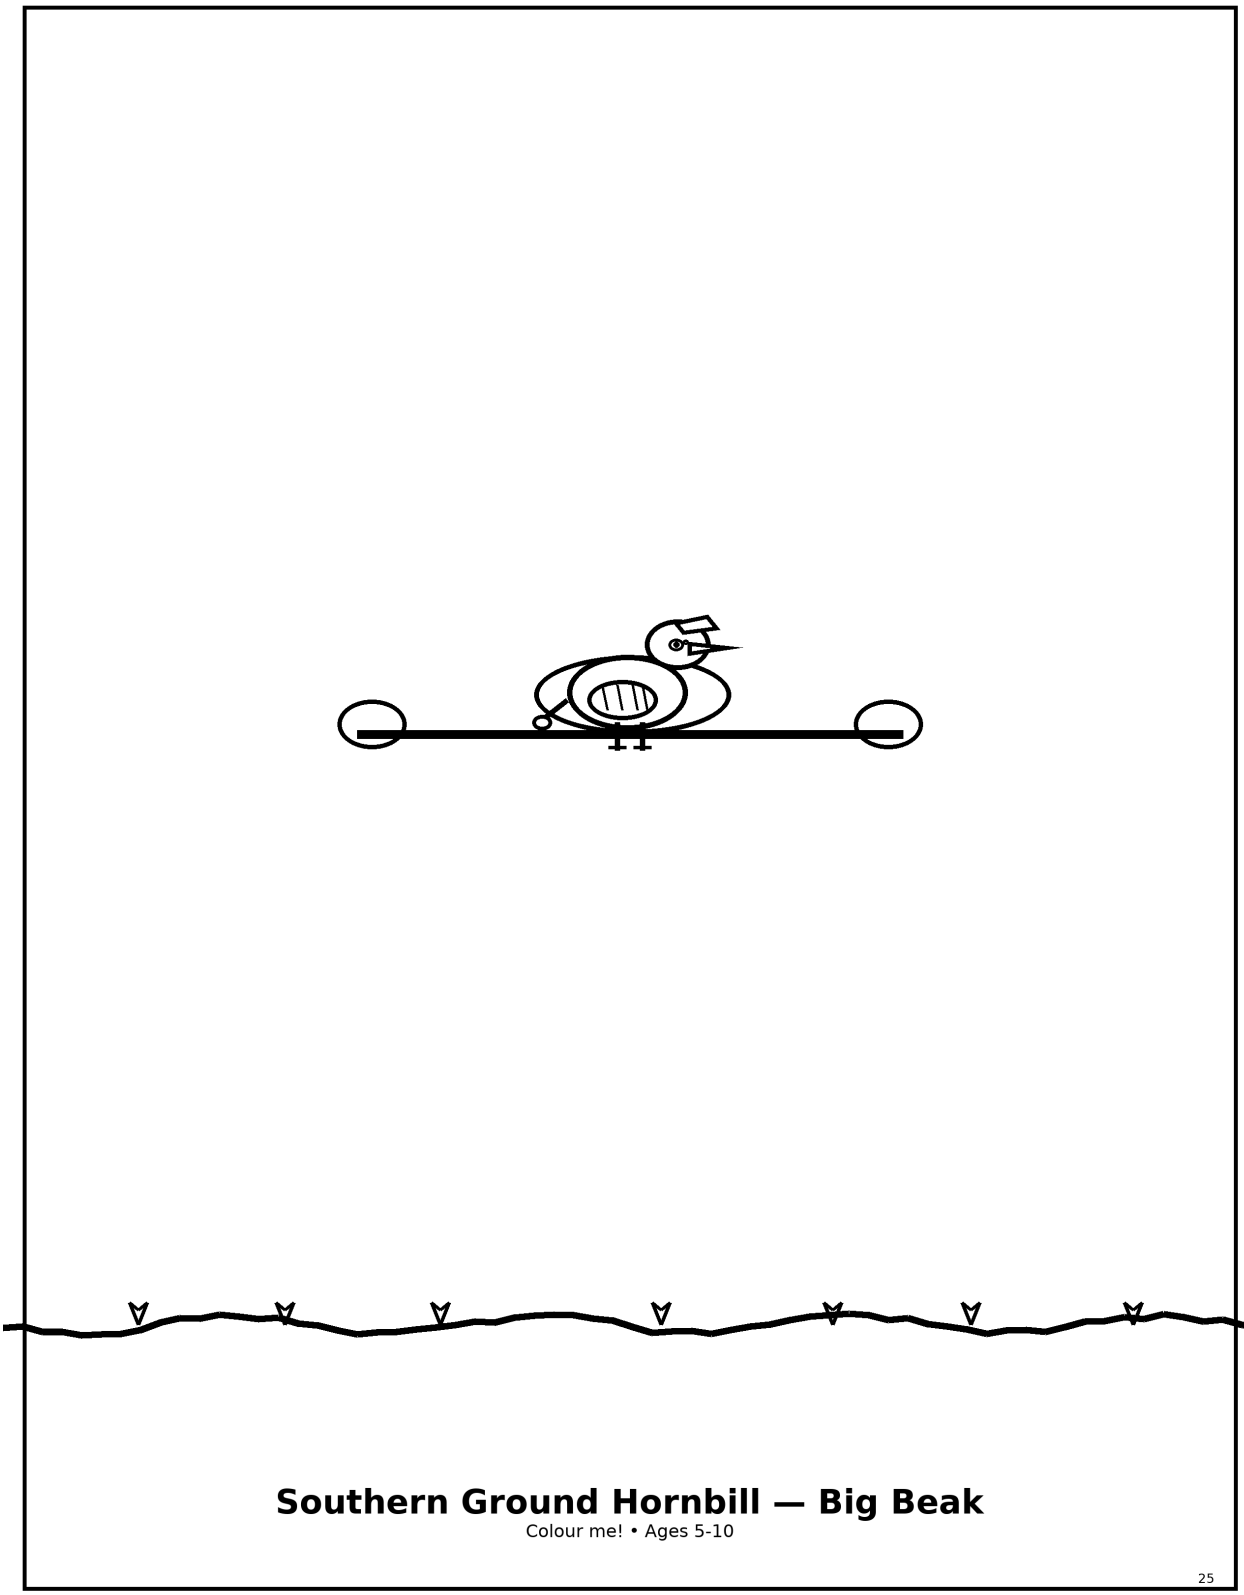

24. Secretarybird — Striding Hunter

Sagittarius serpentarius — A tall raptor that stalks snakes through grassland on long, crane-like legs.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

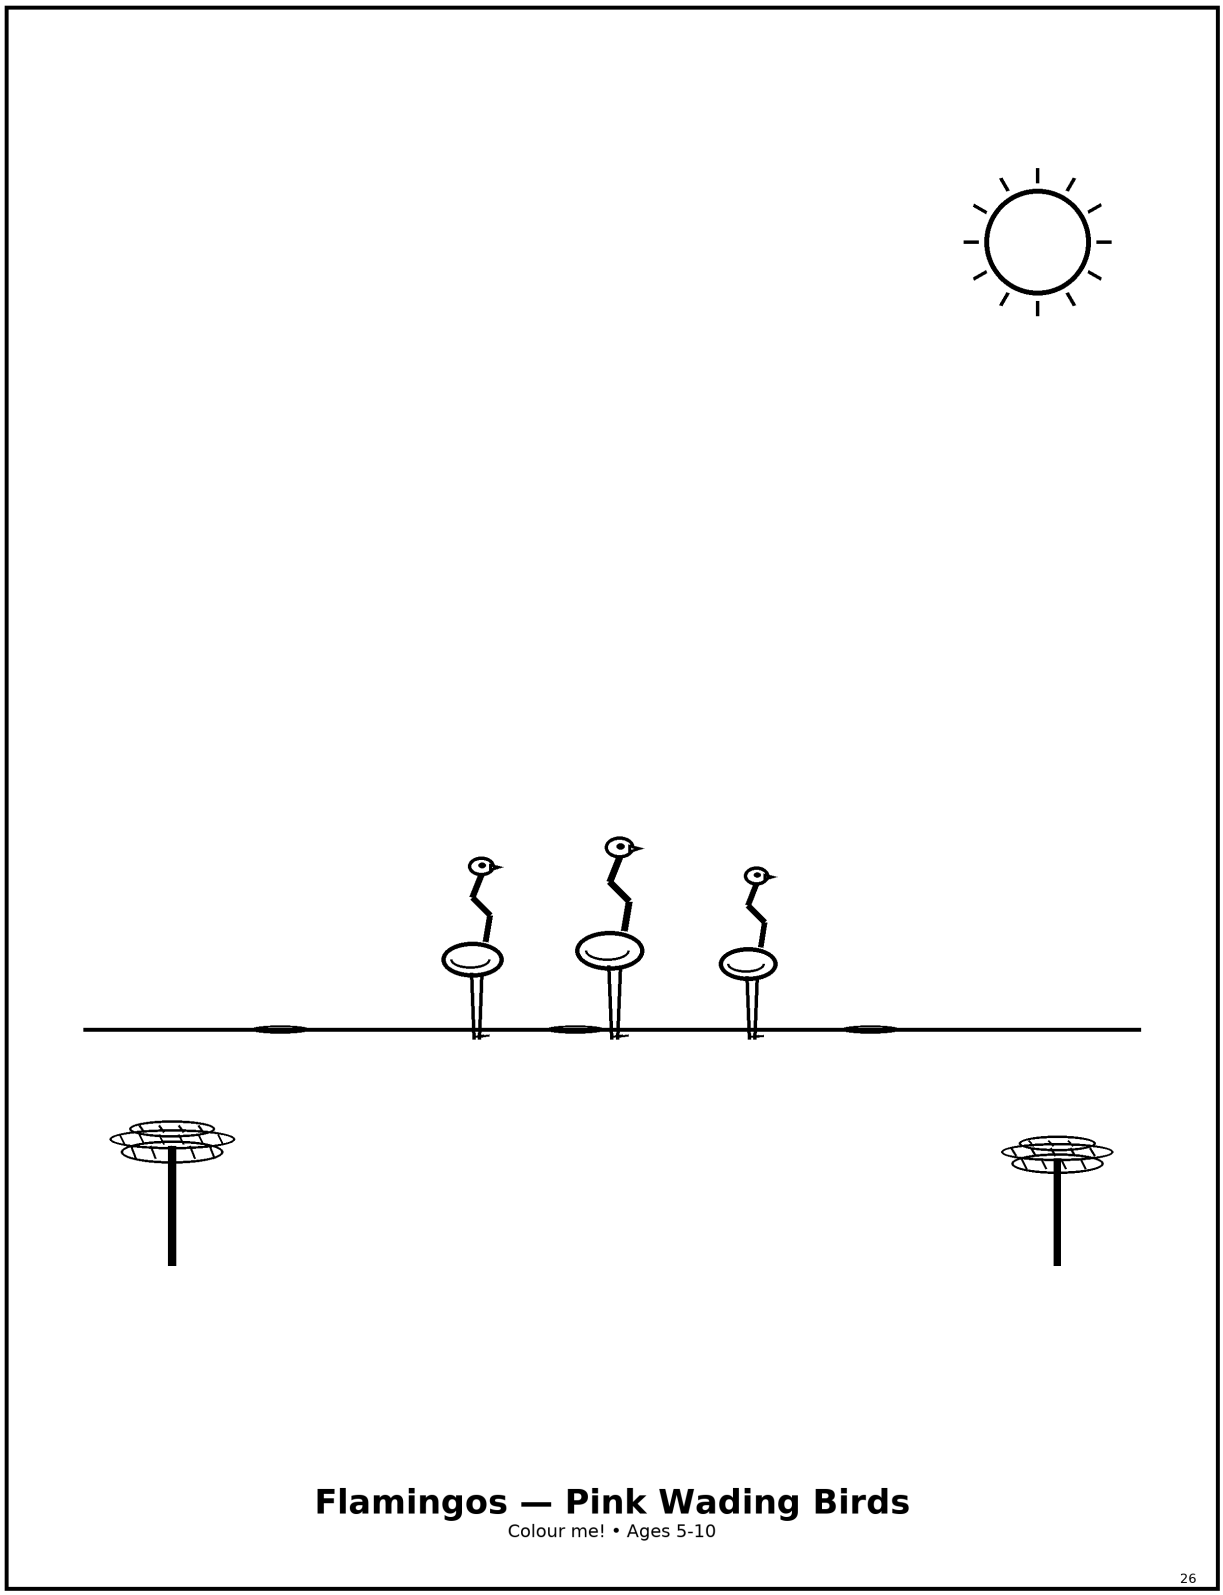

25. Southern Ground Hornbill — Big Beak

Bucorvus leadbeateri — Vulnerable in the wild; its huge beak and casque make its voice boom across savannah.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

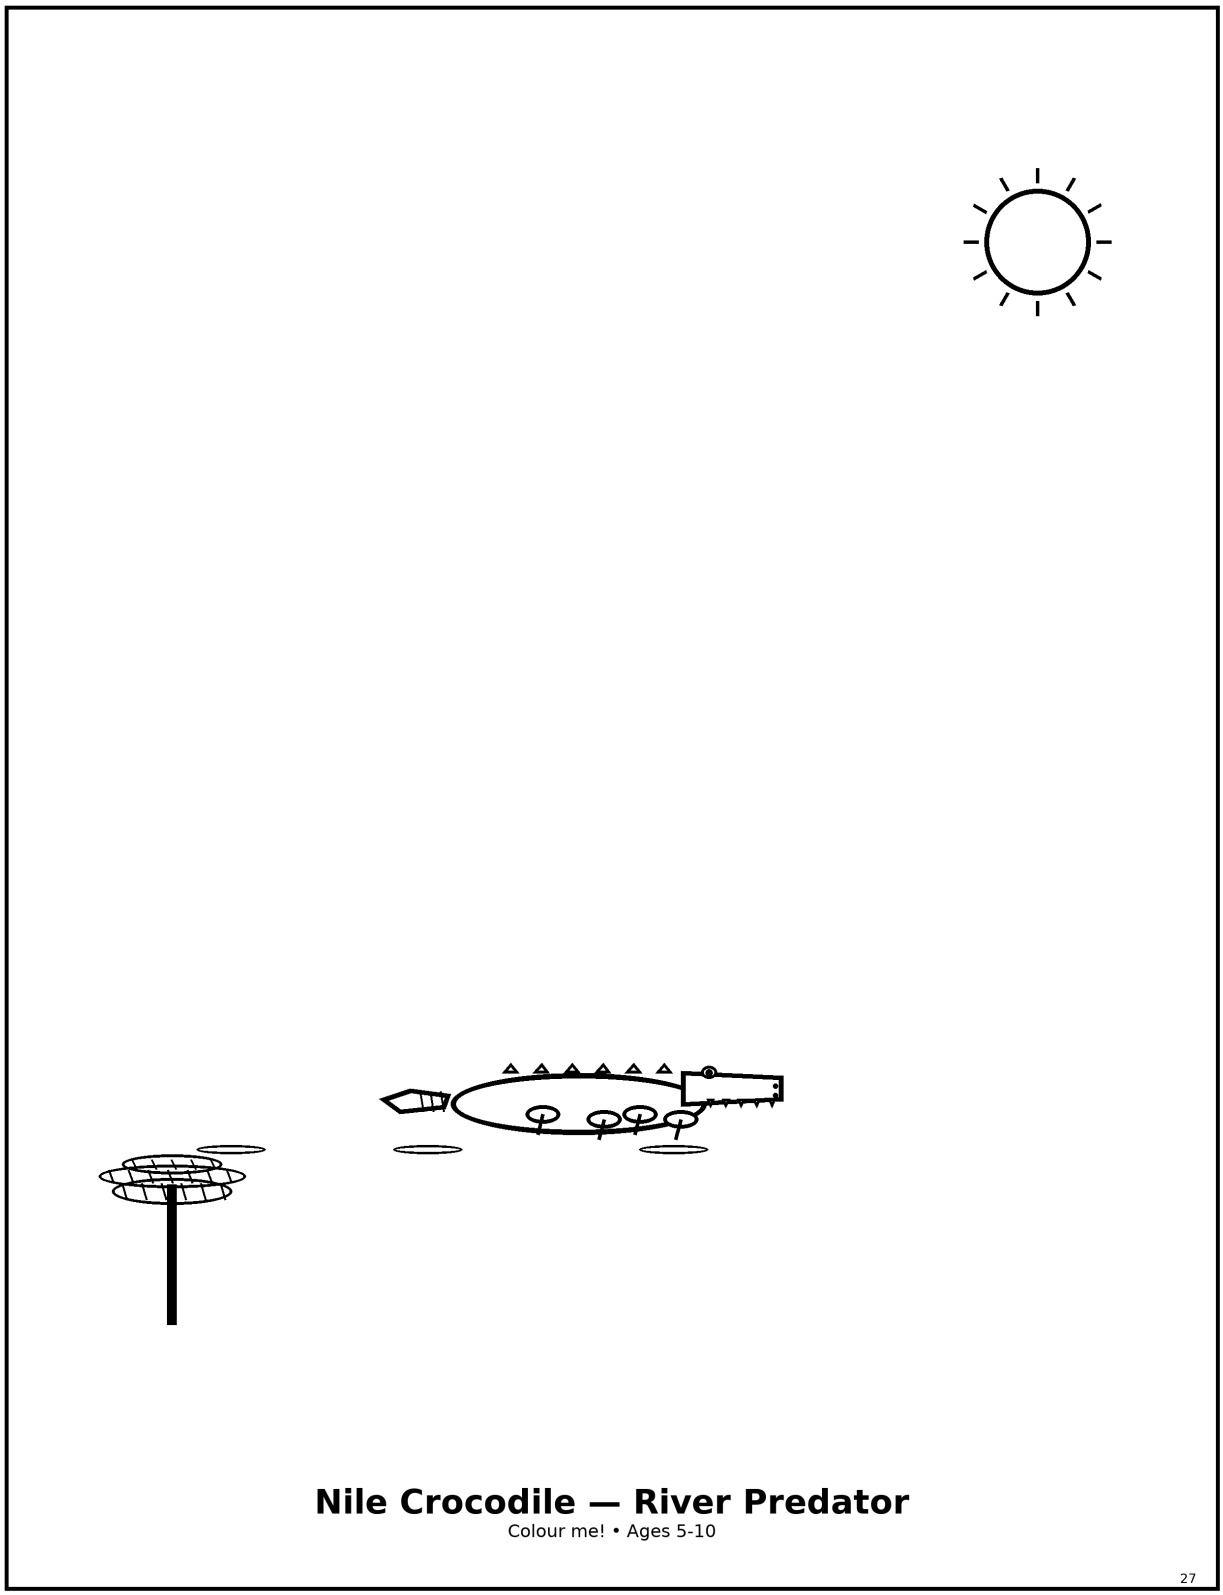

26. Flamingos — Pink Wading Birds

Phoenicopterus roseus & Phoeniconaias minor — Gather by thousands at Rift Valley soda lakes; pink colour comes from their food!

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

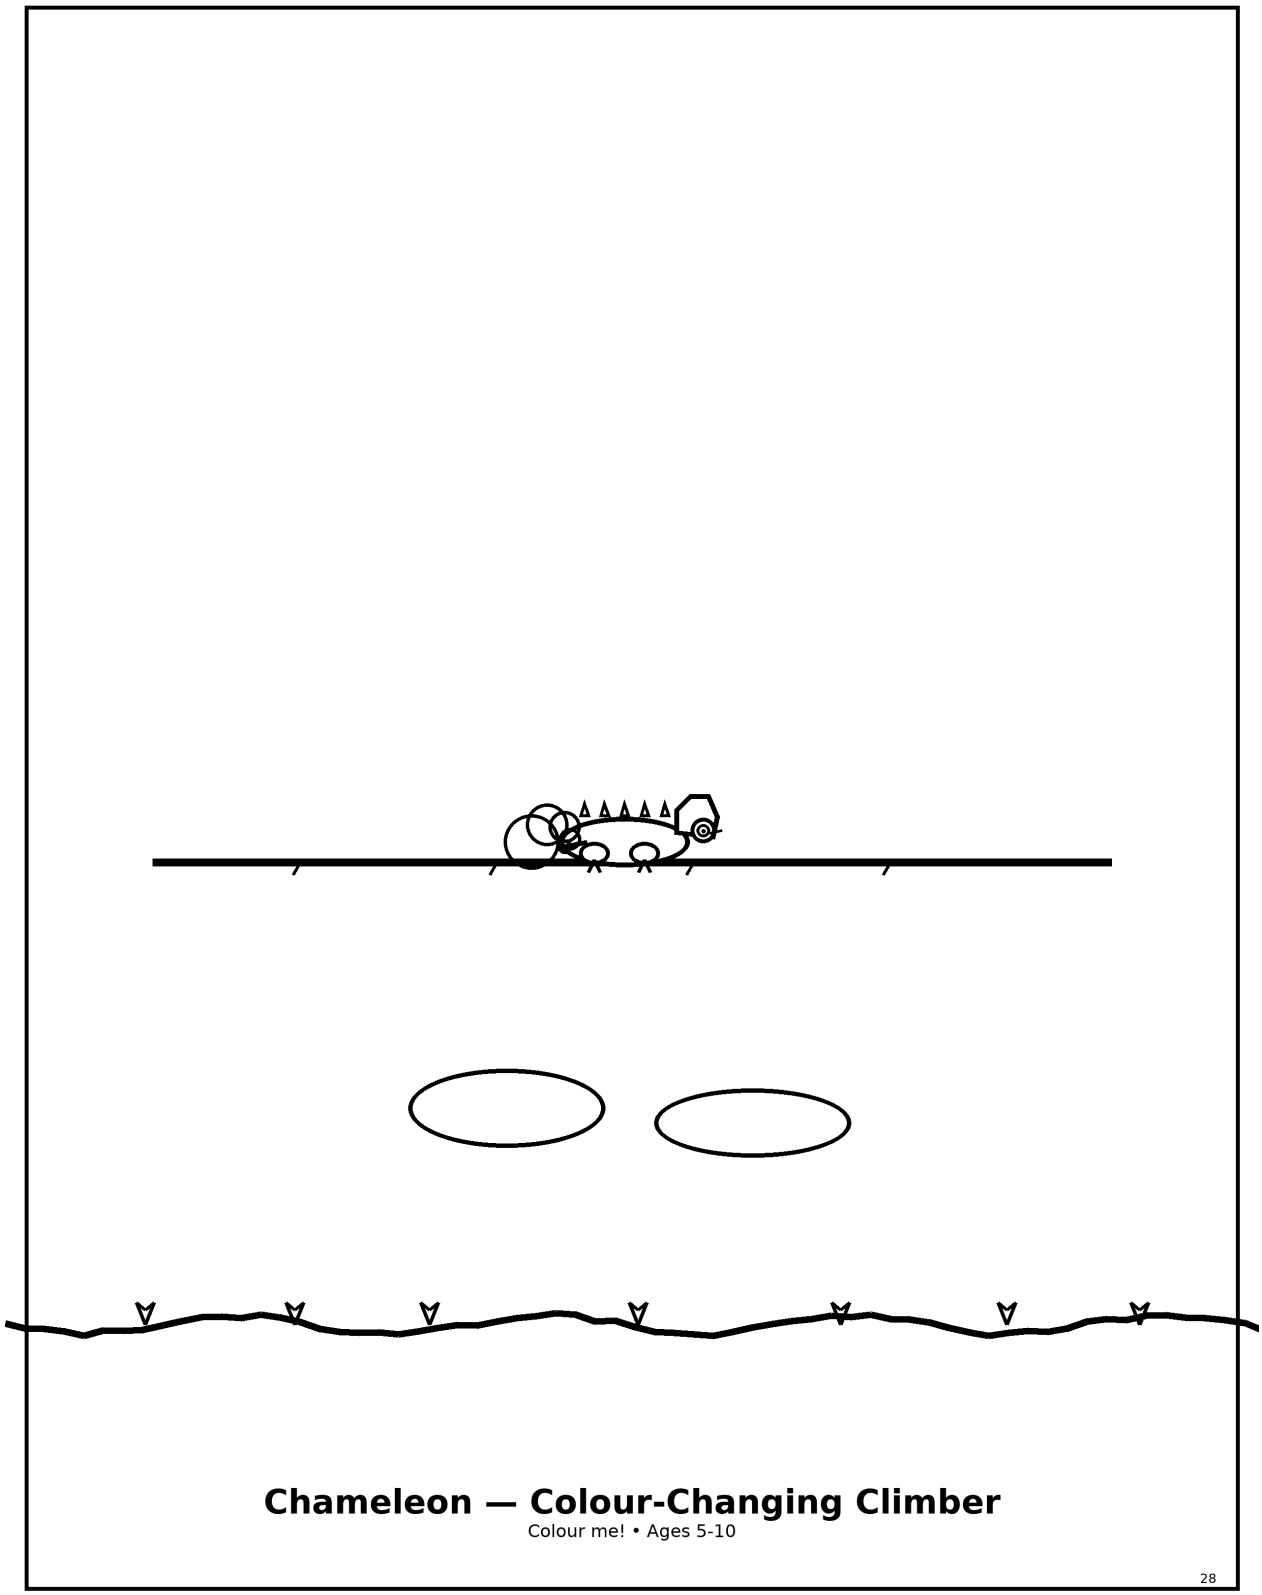

27. Nile Crocodile — River Predator

Crocodylus niloticus — A powerful swimmer with about 68 teeth; it basks on riverbanks to warm up.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

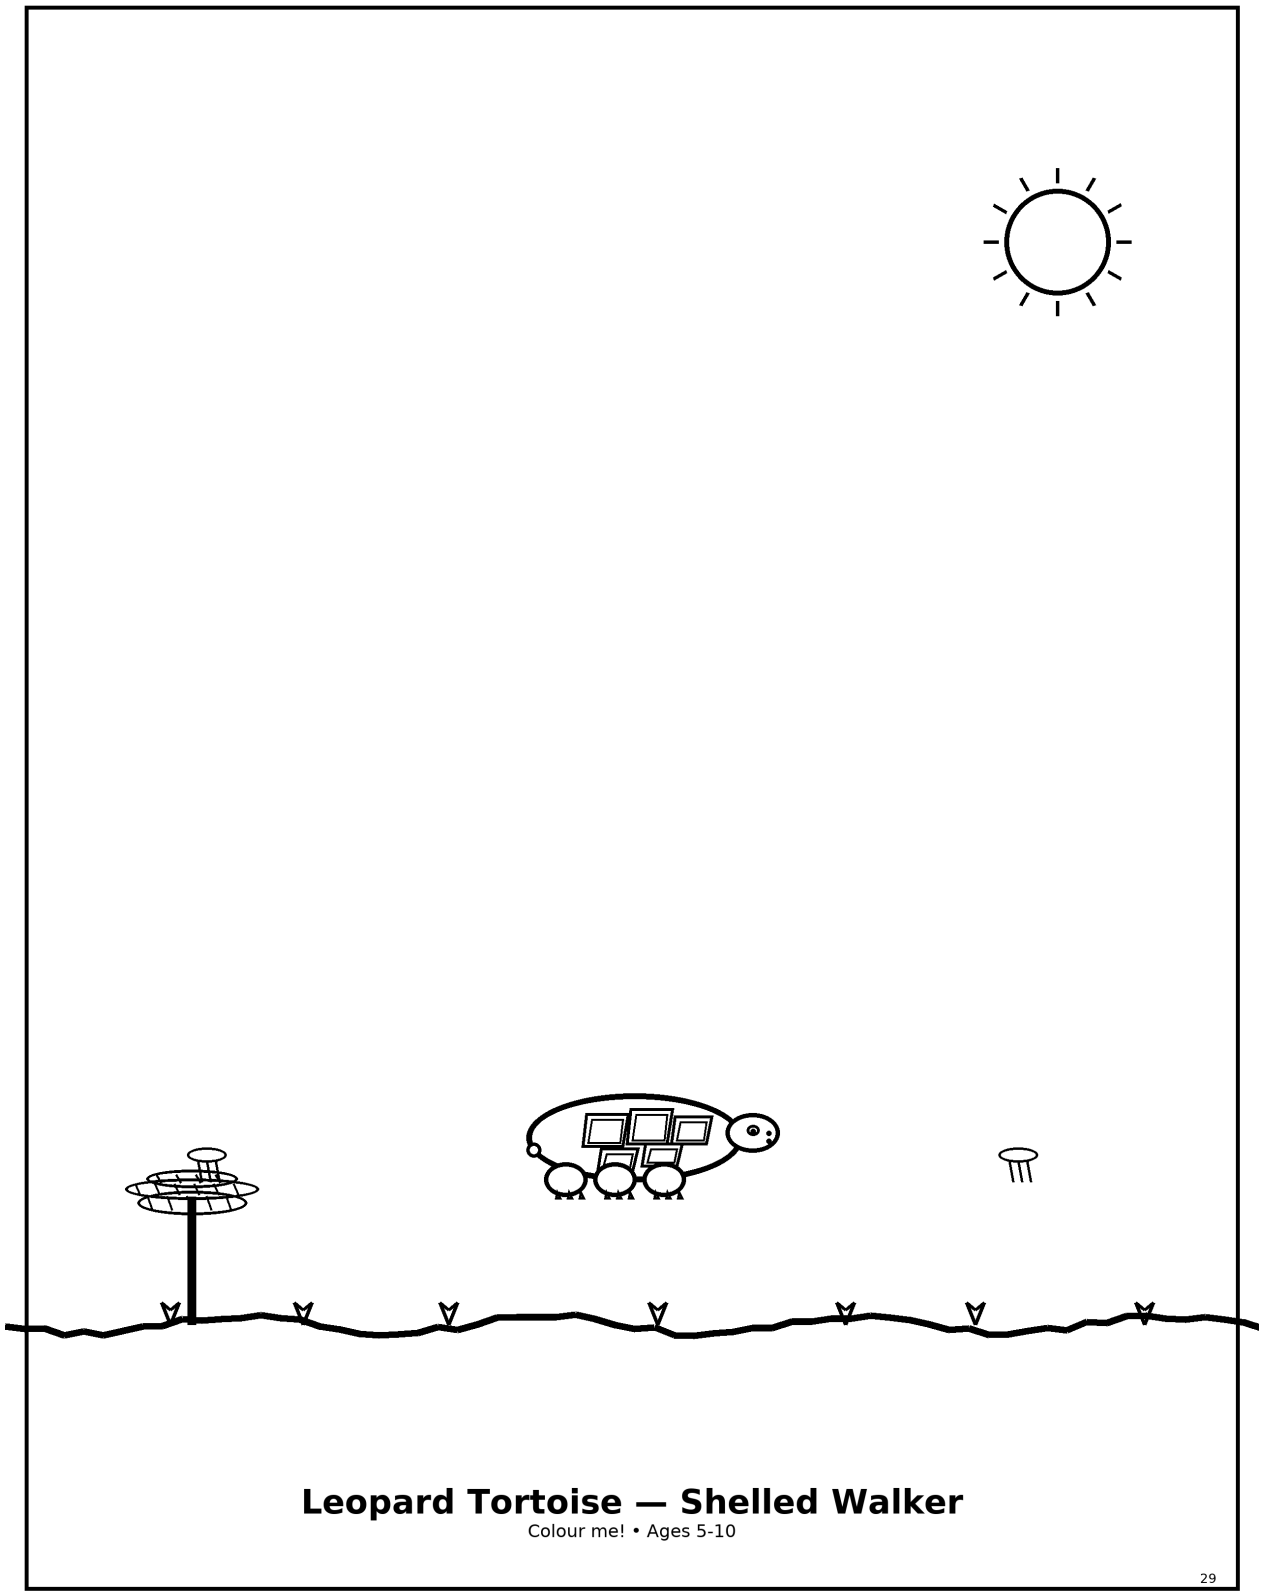

28. Chameleon — Colour-Changing Climber

Trioceros/Chamaeleo spp. — Can move each eye independently; its sticky tongue can be longer than its body!

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

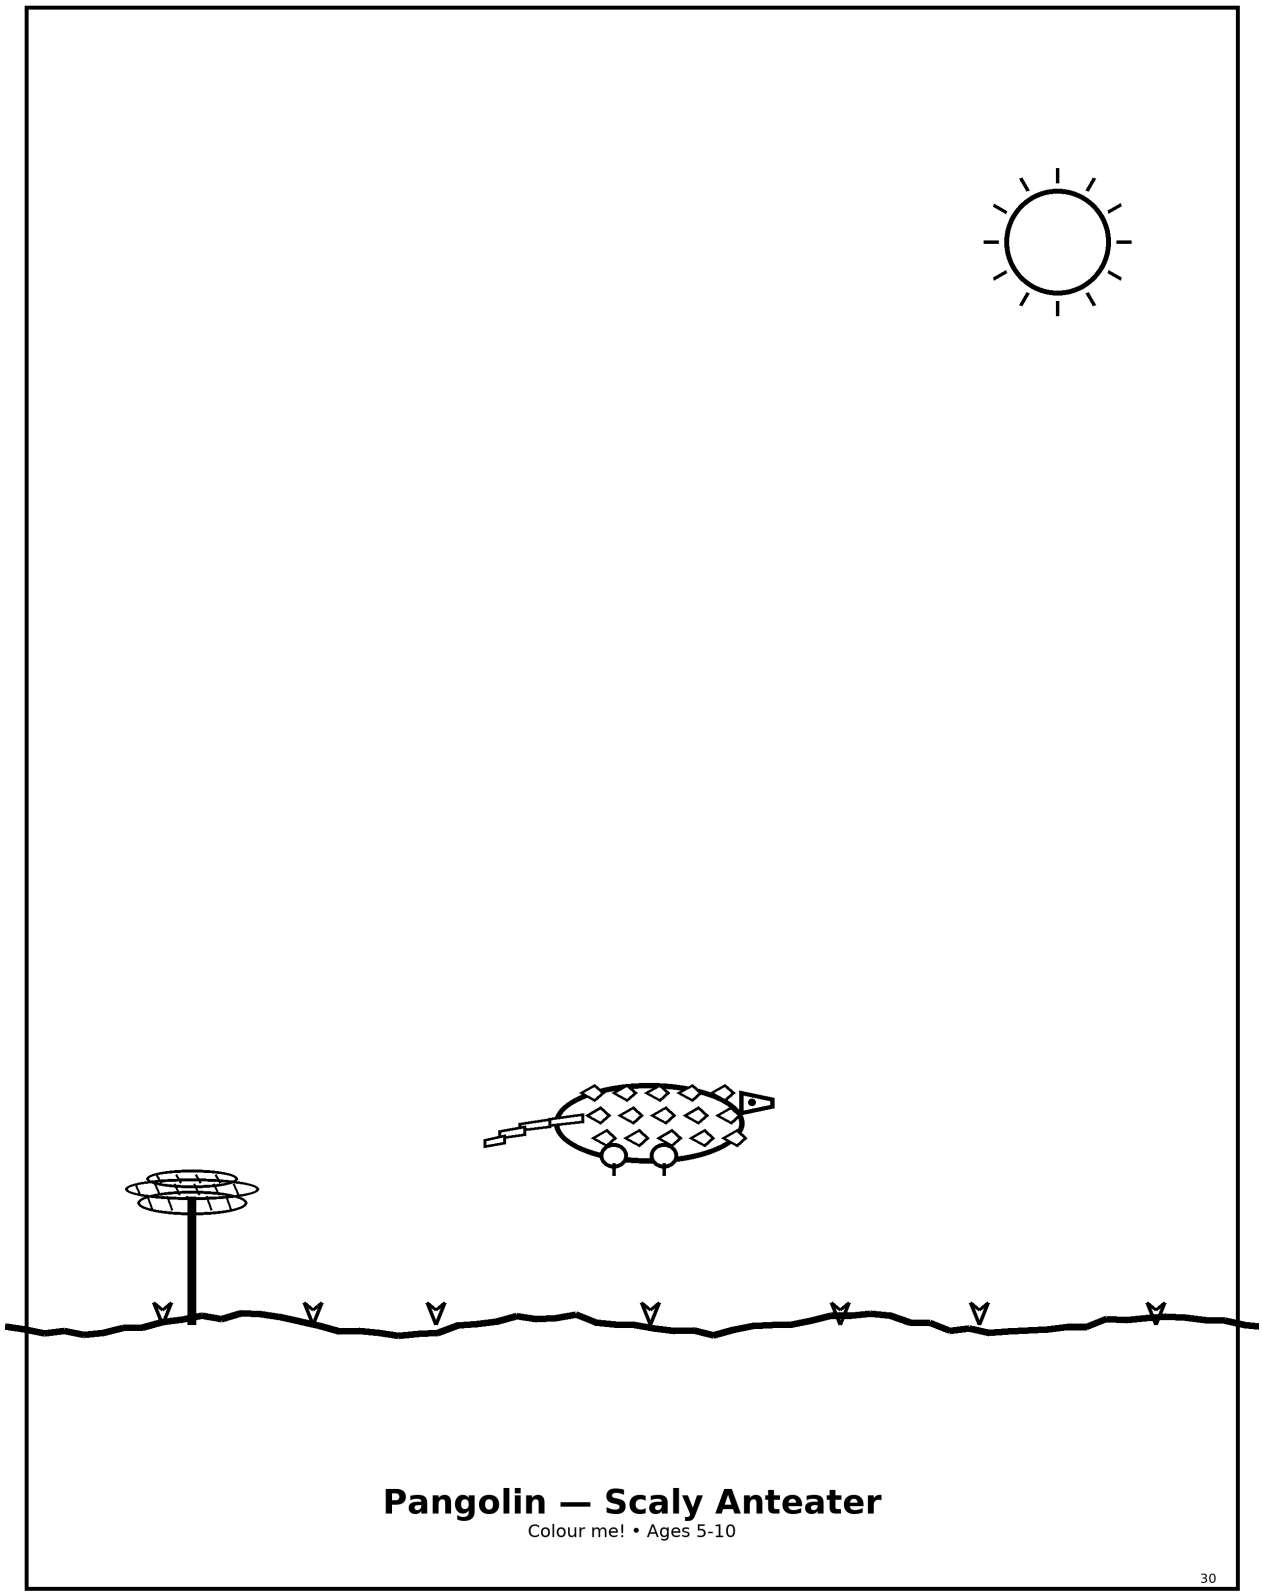

29. Leopard Tortoise — Shelled Walker

Stigmochelys pardalis — Named for its spotted shell; it stores water and travels slowly across savannah and bush.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

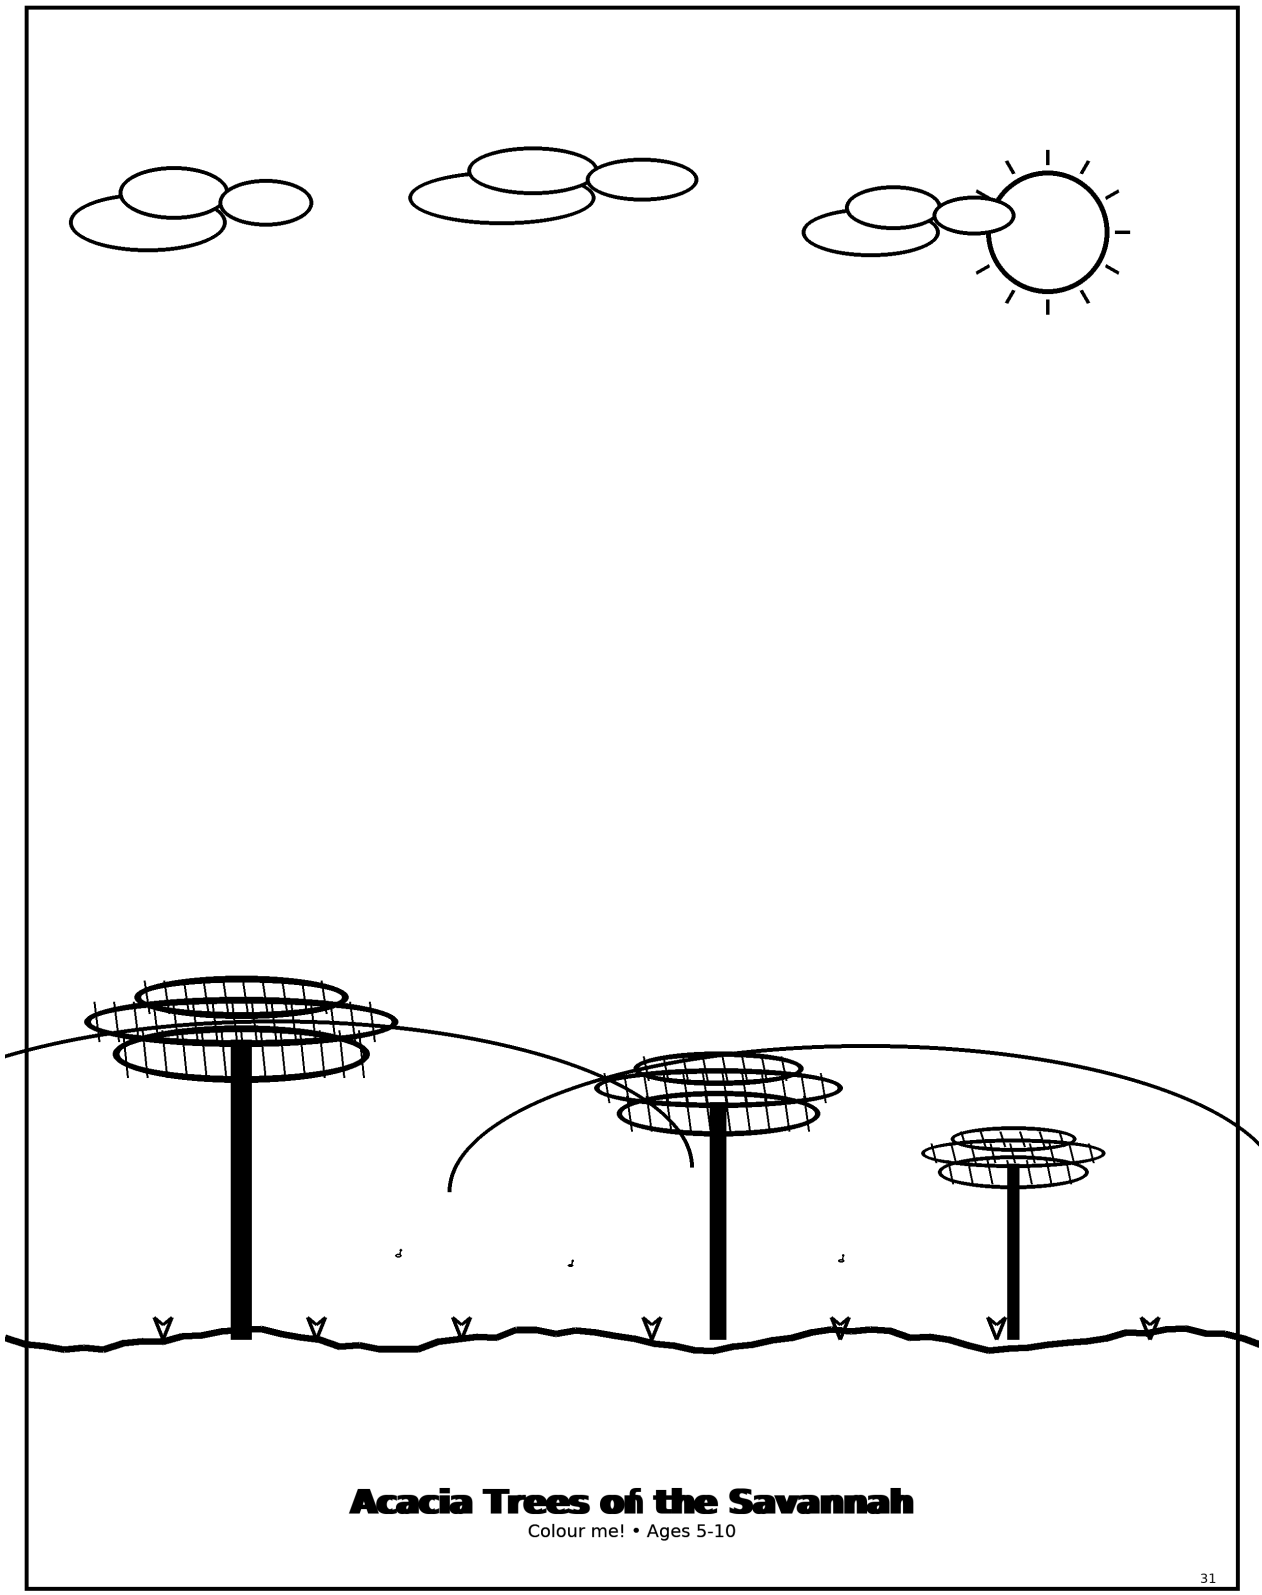

30. Pangolin — Scaly Anteater

Smutsia spp. — The world's only scaly mammal; it curls into a ball when scared and eats ants with a long tongue.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

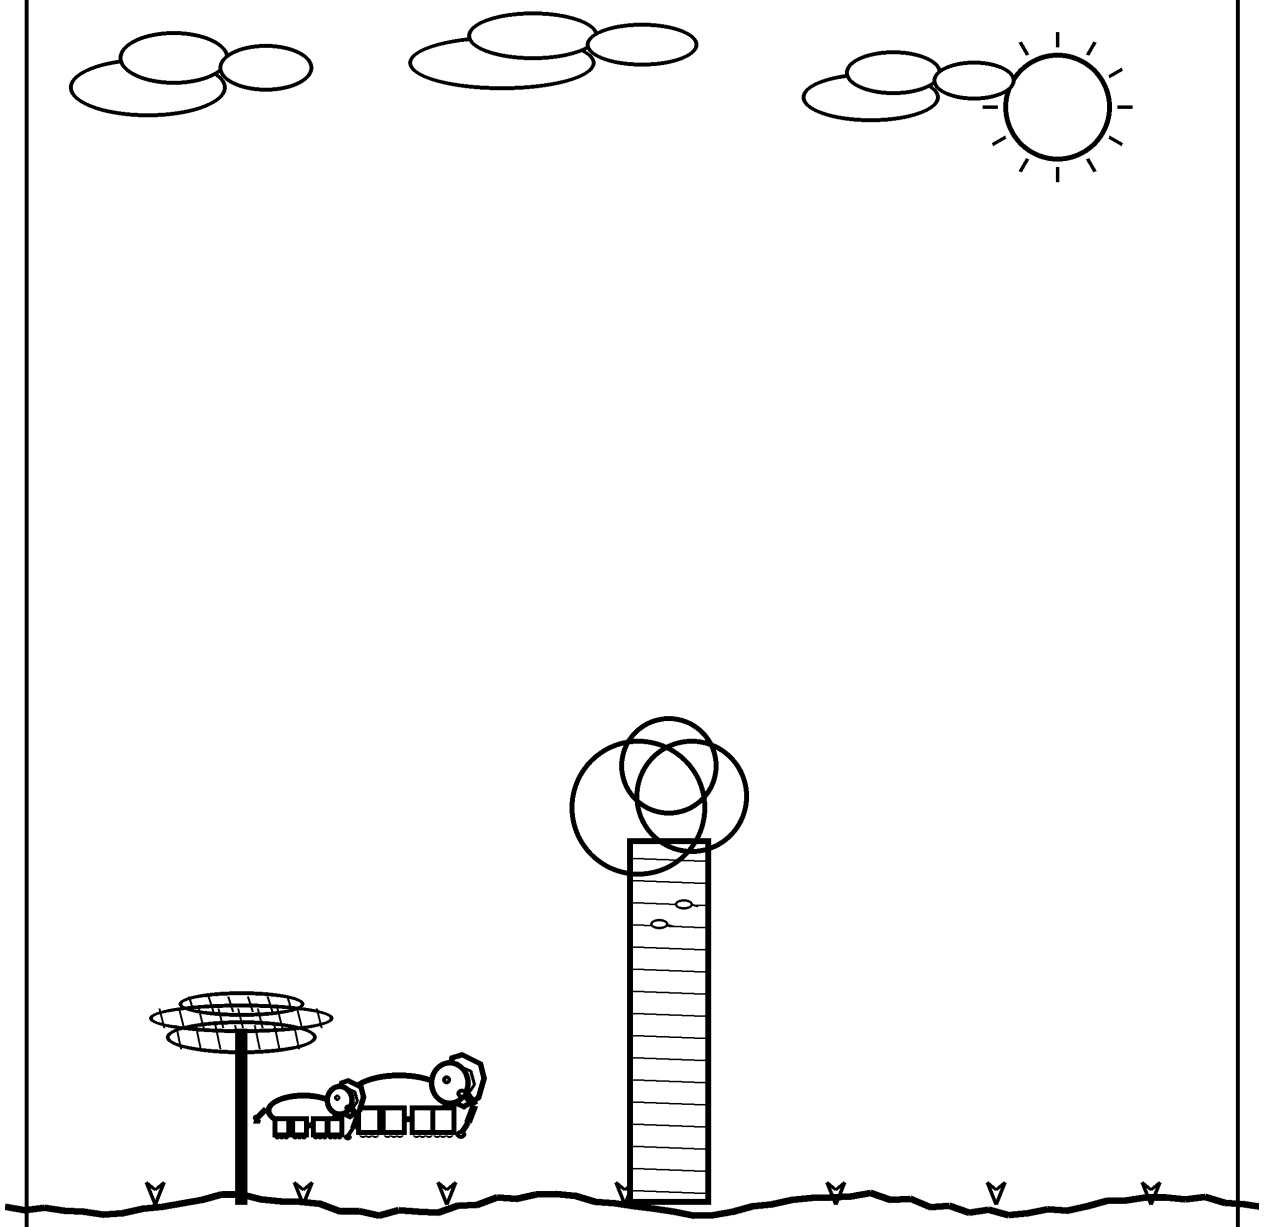

31. Acacia Trees on the Savannah

Flat-topped acacia trees dot the savannah — their leaves feed giraffes and their thorns protect them.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

32. Baobab Tree — Tree of Life

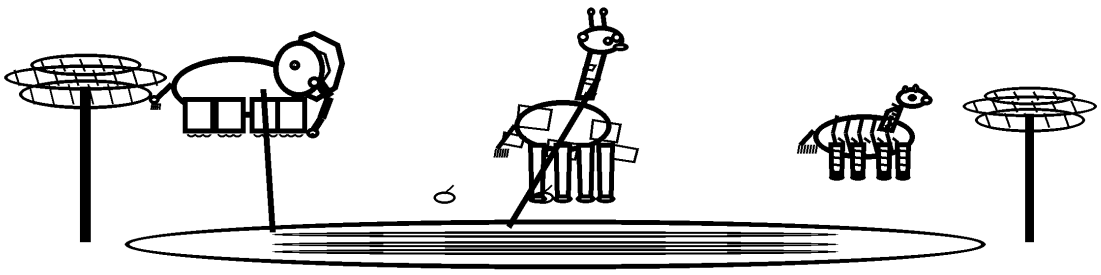

Colour me! • Ages 5-10

32

Adansonia digitata — Can live 1,000+ years and store thousands of litres of water in its trunk!

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

33. Watering Hole Gathering

Watering Hole Gathering

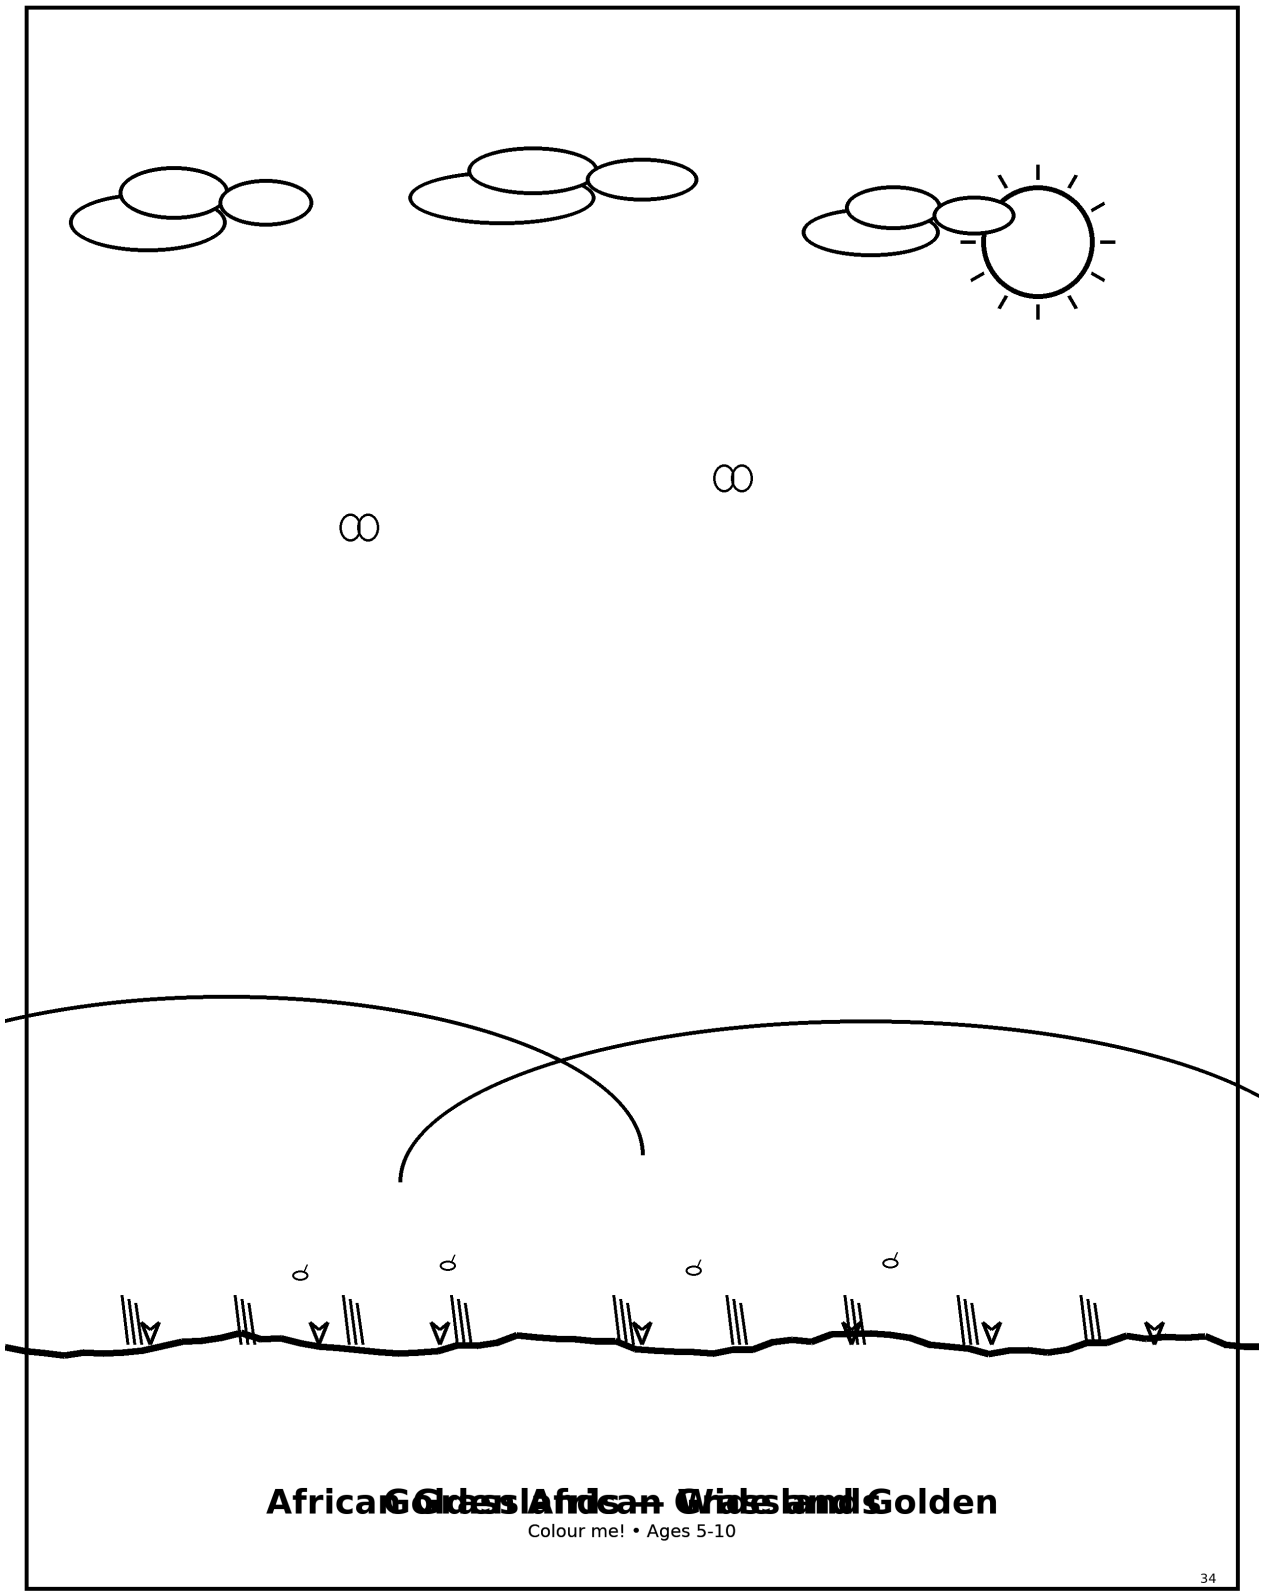

Colour me! • Ages 5-10

33

In dry seasons, elephants, giraffes, and zebras share shrinking waterholes — a busy, careful truce.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

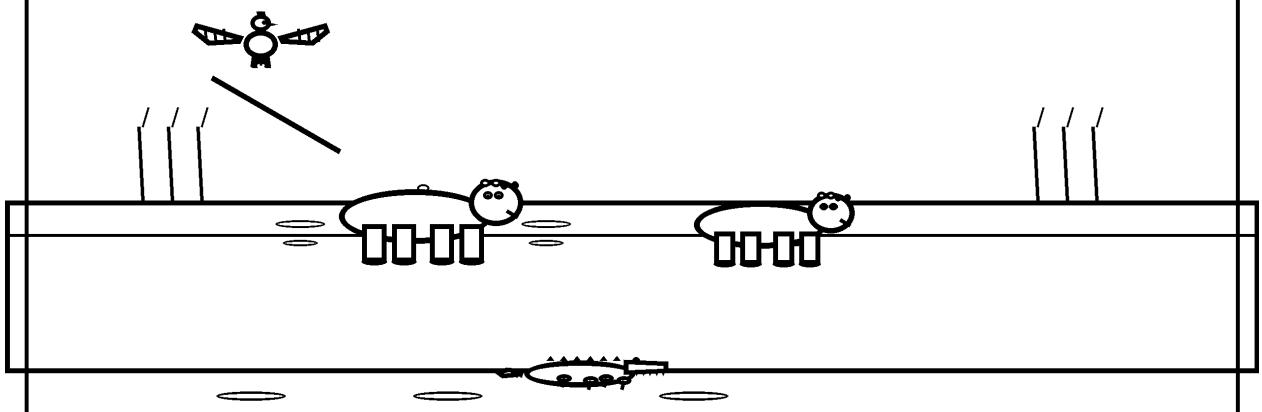

34. African Grasslands — Wide and Golden

Savannah grasslands cover about half the continent — home to grazing herds and their predators.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

35. Riverbank with Hippos and Birds

Riverbank with Hippos and Birds

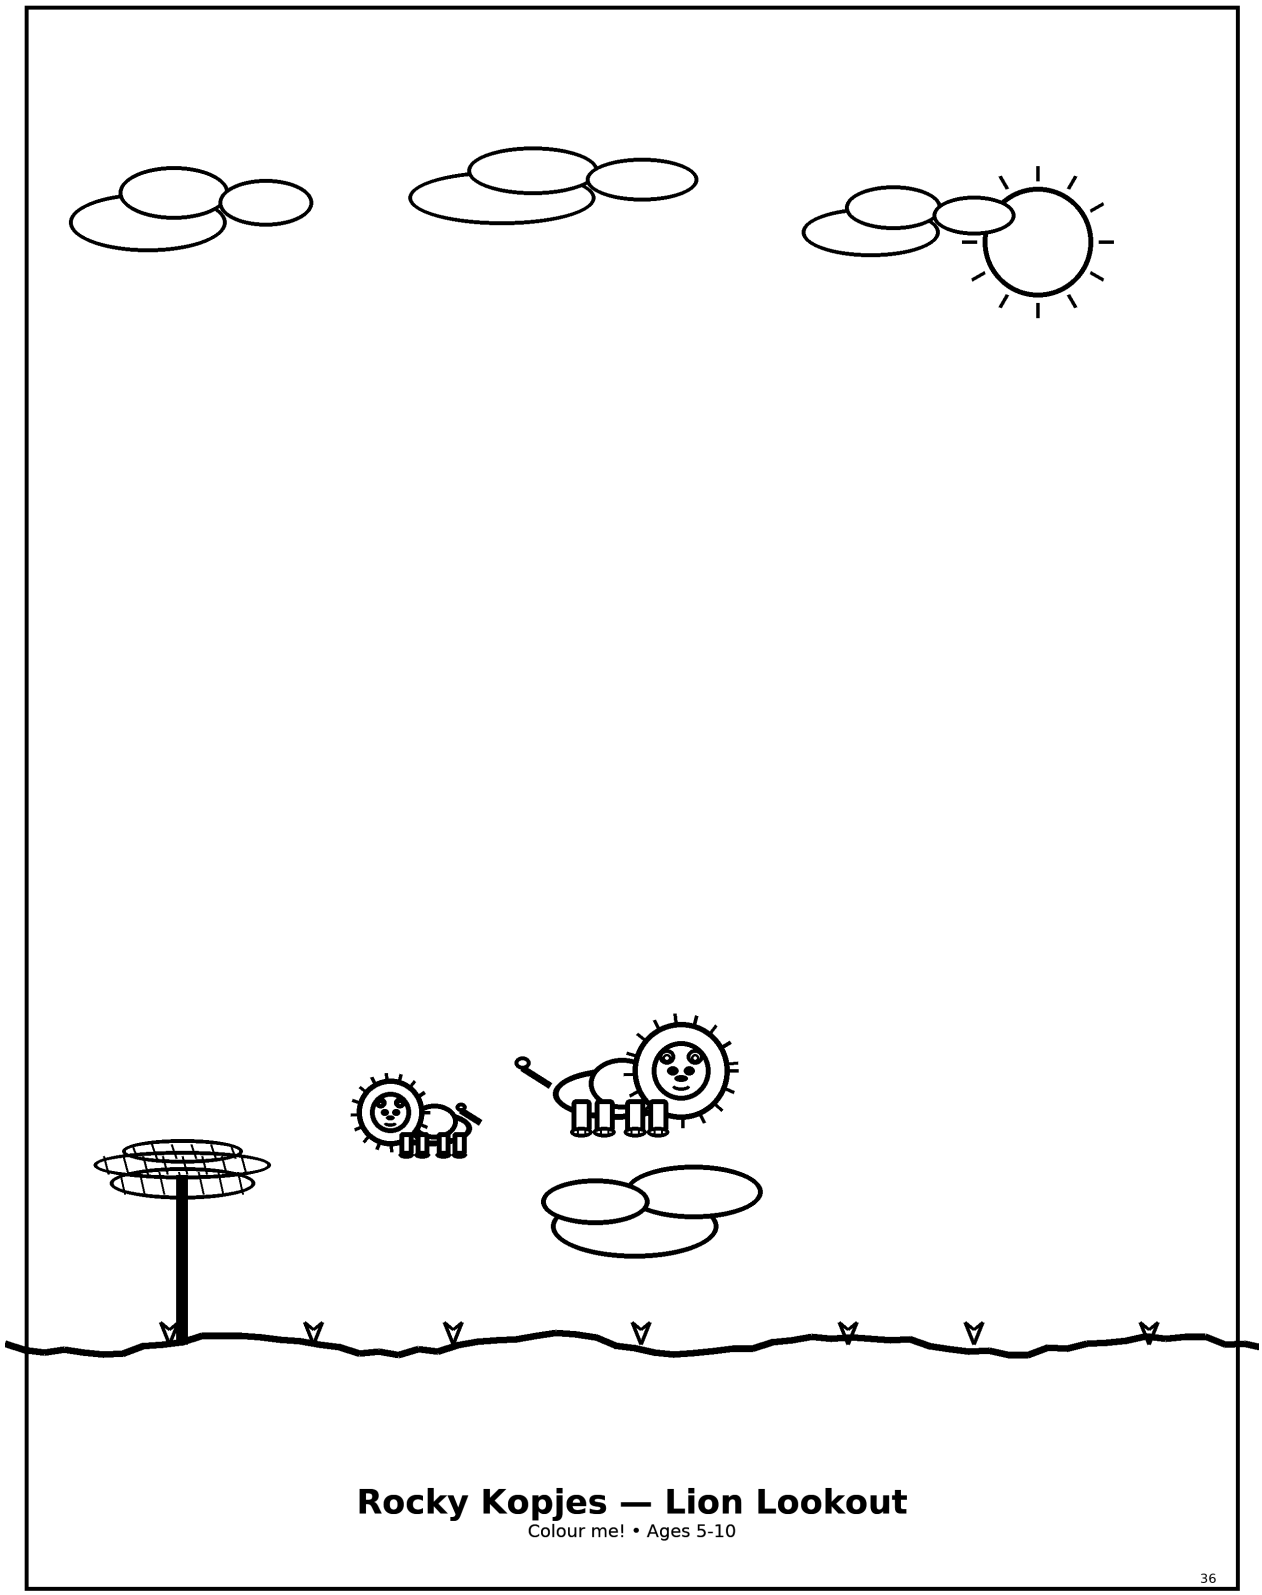

Colour me! • Ages 5-10

35

Hippopotamuses wallow together in rivers; birds like kingfishers and eagles nest nearby.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

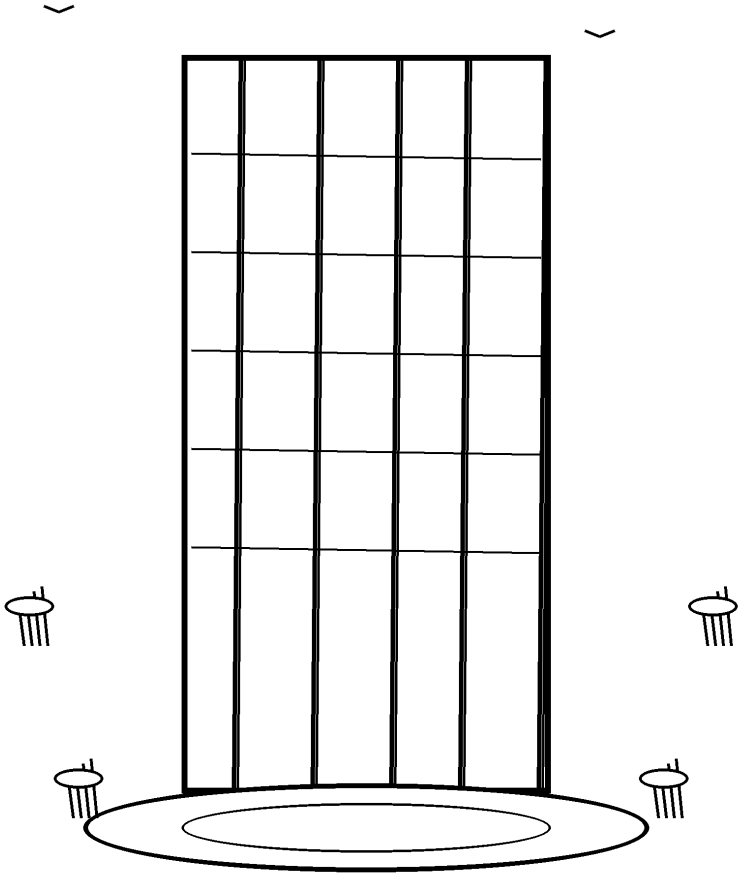

36. Rocky Kopjes — Lion Lookout

Kopjes are rocky hills that rise from plains; lions rest on them to spot prey and cool in the breeze.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

37. Waterfall and Lush Vegetation

Waterfall and Lush Vegetation

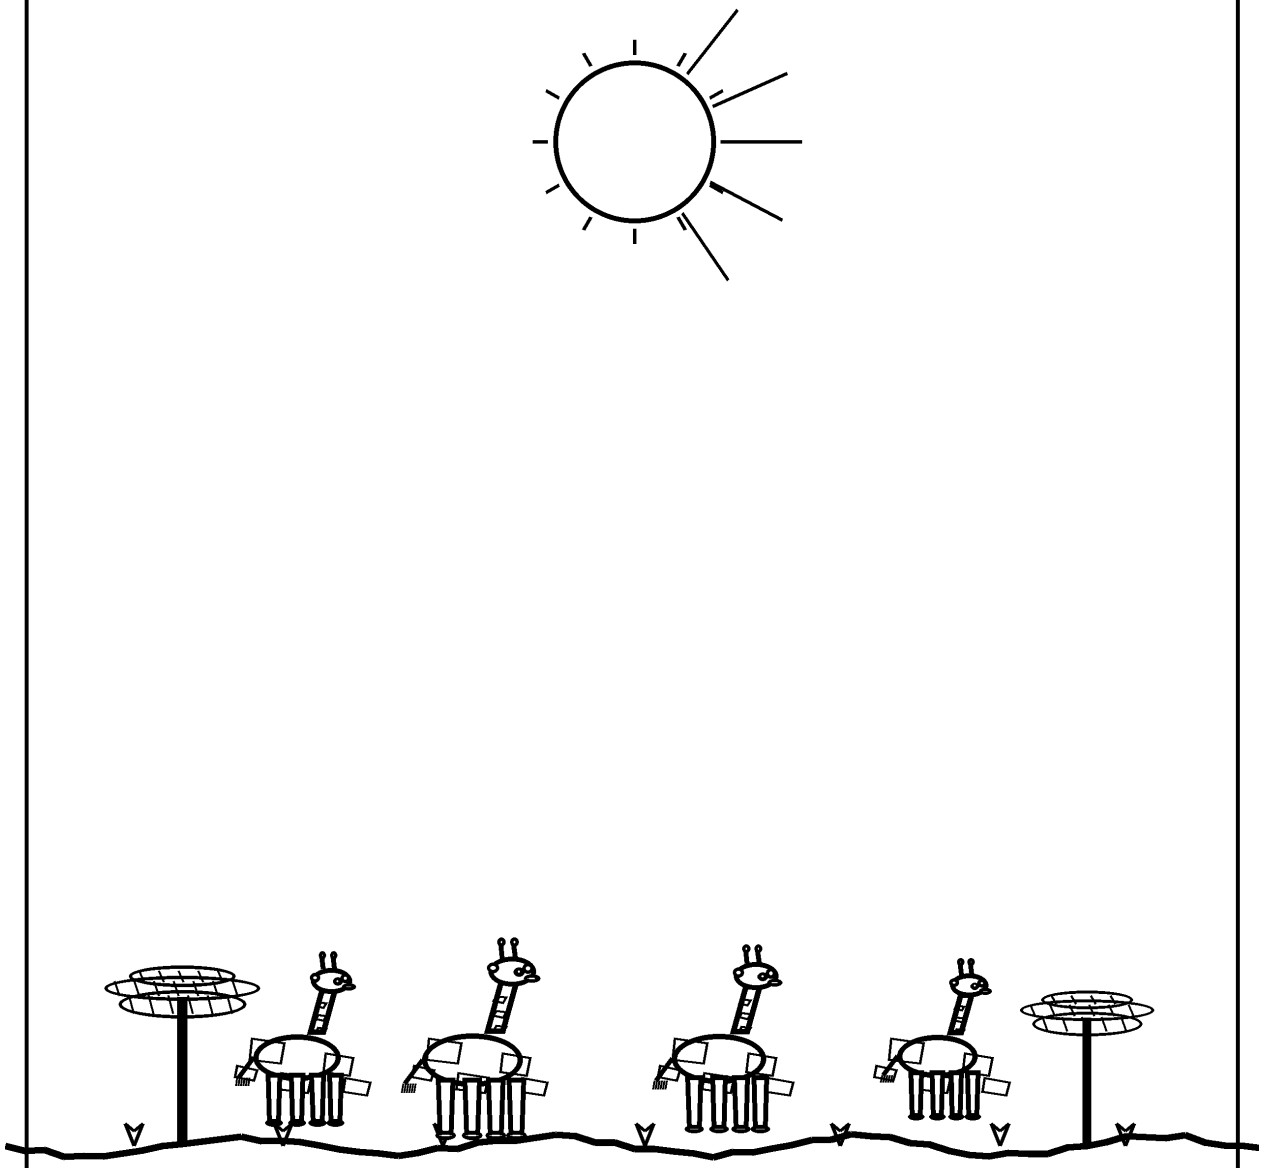

Colour me! • Ages 5-10

37

Africa's waterfalls (like Victoria Falls) thunder and spray — creating lush oases for plants and animals.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

38. Peaceful Safari Sunrise

Peaceful Safari Sunrise

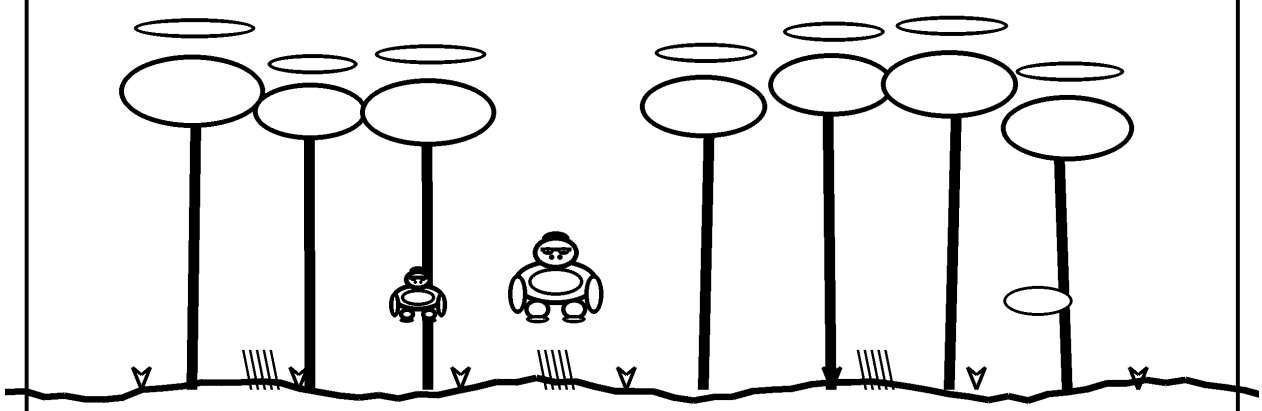

Colour me! • Ages 5-10

38

Many animals are most active at dawn and dusk — listen for birdsong and watch giraffes wake.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

39. African Forest — Congo Rainforest

African Forest — Congo Rainforest

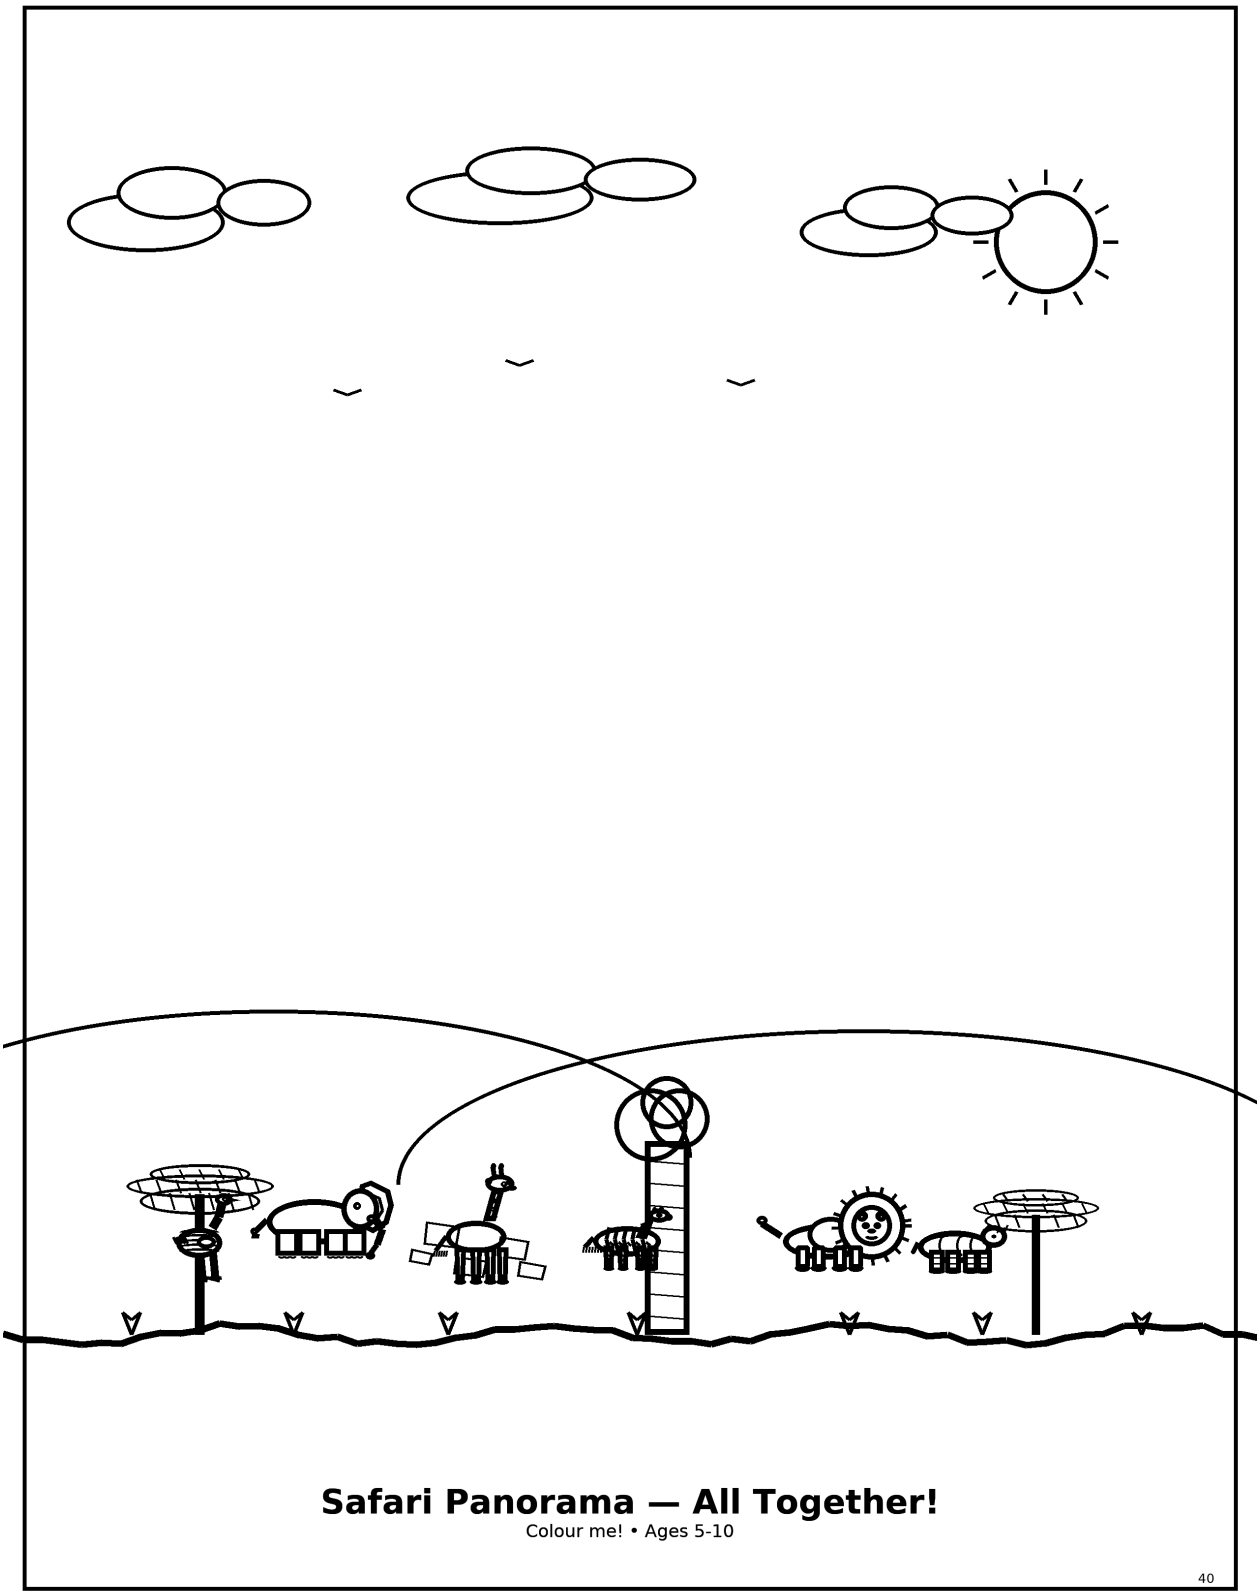

Colour me! • Ages 5-10

39

The Congo Basin rainforest is Africa's green heart — home to gorillas, okapis, parrots, and towering trees.

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

40. Safari Panorama — All Together!

A final celebration — can you spot every animal you coloured? Count them and name their habitats!

Tip: Look up real colours, then make it yours! • Use a blank sheet behind the page for markers.

10 Amazing Wildlife Facts

Short, true, and safari-approved — read one before you colour.

Fact 1: Why Do Giraffes Have Such Long Necks?

Giraffes have necks up to 2 metres long with only seven vertebrae — the same number as humans, just much larger ones! A long neck helps them nibble leaves high in acacia trees that other animals cannot reach. Males also use their necks in gentle 'necking' contests. Habitat: Open savannah and woodlands of East and Southern Africa. Sources: San Diego Zoo Wildlife Alliance; African Wildlife Foundation (2024).

Fact 2: How Do Elephants Use Their Trunks?

An elephant trunk has about 40,000 muscles and works like a nose, hand, and shower in one. Elephants use it to breathe, smell, suck up water to drink, pick up tiny seeds, and trumpet loudly. Mothers gently touch calves with their trunks to comfort them. Species shown: African bush elephant — the largest land mammal, with large, Africa-shaped ears. Sources: WWF; African Wildlife Foundation.

Sources checked: African Wildlife Foundation, San Diego Zoo Wildlife Alliance, National Geographic Education, IUCN Red List (2024).

Fact 3: Why Are Zebra Stripes One-of-a-Kind?

Every zebra's stripes are unique, just like a human fingerprint. Foals learn to recognise their mother's pattern within hours. Scientists think stripes may help with temperature control and confuse flies. Plains zebras live in family groups that join into larger herds for migration. Sources: National Geographic Education; San Diego Zoo.

Fact 4: What Makes the African Savannah Special?

Savannah covers nearly half of Africa — a mix of grasses and scattered trees with a long dry season and a rainy season. Huge herds of grazers (zebra, wildebeest, buffalo, impala) move with the rains, followed by predators. Fire and grazing keep the savannah open. Sources: National Geographic; Encyclopedia Britannica.

Sources checked: African Wildlife Foundation, San Diego Zoo Wildlife Alliance, National Geographic Education, IUCN Red List (2024).

Fact 5: How Do Hippos Use Water Habitats?

Hippos spend up to 16 hours a day in rivers and lakes to keep their skin moist and cool. Their eyes, ears, and nostrils sit on top of their heads, so they can see, hear, and breathe while mostly submerged. At night they leave the water to graze on grass. Sources: African Wildlife Foundation; IUCN.

Fact 6: What Do Vultures Do for the Ecosystem?

Vultures are nature's clean-up crew. By eating carrion quickly, they stop diseases from spreading to other animals and people. Africa has 11 vulture species, many now endangered due to poisoning and habitat loss. Protecting vultures keeps savannahs healthy. Sources: IUCN Red List; BirdLife International (2024).

Sources checked: African Wildlife Foundation, San Diego Zoo Wildlife Alliance, National Geographic Education, IUCN Red List (2024).

Fact 7: Why Are Baobab Trees Remarkable?

Baobabs can live over 1,000 years and grow trunks more than 10 metres wide. They store water inside, flower at night for bats, and produce nutritious fruit. Many animals — elephants, birds, and insects — depend on them, which is why people call them the 'Tree of Life.' Sources: National Geographic; African Wildlife Foundation.

Fact 8: How Do Animals Adapt to Different Habitats?

Not all African wildlife lives in savannah! Gorillas thrive in cool mountain forests, flamingos filter food in salty soda lakes, meerkats dig burrows in the Kalahari Desert, and penguins waddle on South Africa's coast. Each species has special adaptations — thick fur, webbed feet, or water-saving kidneys. Sources: WWF; San Diego Zoo.

Sources checked: African Wildlife Foundation, San Diego Zoo Wildlife Alliance, National Geographic Education, IUCN Red List (2024).

Fact 9: How Do Cheetahs Run So Fast?

Cheetahs are built for speed: a flexible spine, long legs, a big heart and lungs, and claws that grip like running shoes. They can go from 0 to 100 km/h in about 3 seconds but can only keep top speed for a short chase. Afterward they need to rest and cool down. Sources: Cheetah Conservation Fund; National Geographic.

Fact 10: What Links Pangolins, Forests, and People?

Pangolins are the world's only scaly mammals; scales protect them, and a long sticky tongue catches ants. They live in forests and savannahs but are the most trafficked wild mammals globally. Protecting forests and saying 'no' to illegal products helps pangolins survive. Sources: IUCN; WWF (2024).

Sources checked: African Wildlife Foundation, San Diego Zoo Wildlife Alliance, National Geographic Education, IUCN Red List (2024).

Safari Spotter Guide

Can you name every animal in this book? Use this checklist!

#	Common Name	Scientific Name	☐
1	African Lion	*Panthera leo*	☐
2	African Leopard	*Panthera pardus*	☐
3	African Bush Elephant	*Loxodonta africana*	☐
4	African Buffalo	*Syncerus caffer*	☐
5	White Rhinoceros	*Ceratotherium simum*	☐
6	Giraffe (multi-species)	*Giraffa spp.*	☐
7	Plains Zebra	*Equus quagga*	☐
8	Cheetah	*Acinonyx jubatus*	☐
9	Spotted Hyena	*Crocuta crocuta*	☐
10	Warthog	*Phacochoerus africanus*	☐
11	Meerkat	*Suricata suricatta*	☐
12	African Wild Dog	*Lycaon pictus*	☐
13	Common Ostrich	*Struthio camelus*	☐
14	Impala	*Aepyceros melampus*	☐
15	Hippopotamus	*Hippopotamus amphibius*	☐
16	African Fish Eagle	*Icthyophaga vocifer*	☐
17	Secretarybird	*Sagittarius serpentarius*	☐
18	Southern Ground Hornbill	*Bucorvus leadbeateri*	☐
19	Flamingo (Greater/Lesser)	*Phoenicopterus / Phoeniconaias*	☐
20	Nile Crocodile	*Crocodylus niloticus*	☐
21	Chameleon	*Chamaeleonidae spp.*	☐
22	Leopard Tortoise	*Stigmochelys pardalis*	☐
23	Pangolin	*Smutsia spp.*	☐
24	Vervet Monkey	*Chlorocebus pygerythrus*	☐
25	Gorilla	*Gorilla spp.*	☐
26	Baobab (Tree)	*Adansonia digitata*	☐
27	Acacia (Tree)	*Vachellia / Senegalia spp.*	☐

Tick each animal as you colour it. How many can you find in the final panorama on page 44?

Bonus Activity 1

Match the Animal to Its Name

Draw a line from each picture to its correct name. One has been done for you!

A □ Giraffe (tallest)	1. African Buffalo — Strong horns, lives in herds
B □ Lion Example →	2. African Lion — King of the Savannah □
C □ Elephant (big ears)	3. Cheetah — Fastest runner, tear-lines
D □ Zebra (stripes)	4. Giraffe — Tallest animal, eats acacia
E □ Cheetah (spots)	5. Plains Zebra — Every stripe is unique
F □ Buffalo (curved horns)	6. African Bush Elephant — Gentle giant with trunk

Answers: A-4, B-2 , C-6, D-5, E-3, F-1. (See Answer Key on page 56.)

Bonus Activity 2

Count the Animals in the Scene

Look closely and write how many you see. Use the panorama on page 44 to double-check!

Scene	What to Count	How Many?
☐☐ **Watering Hole (p.33)**	Elephants + giraffes + zebras + birds = __	_____
☐☐ **Meerkat Family (p.11)**	Meerkats standing guard = __ (Hint: 1 big + 2 small)	_____
☐☐ **Final Panorama (p.44)**	Total mammals you can name = __	_____
☐☐ **Grasslands (p.34)**	Acacia trees = __	_____
☐☐ **Lion Cubs (p.17)**	Lion cubs playing = __	_____

Write your answers with a pencil, then check on page 56!

Colour the stars for your score: ☐ ☐ ☐ ☐ ☐

Bonus Activity 3

Find 5 Differences — Zebra Friends

Two zebra pictures look the same — but 5 things are different! Circle them.

Picture A	Picture B
Zebra standing under acacia • Acacia has 3 foliage clumps • Sun in top-right • Zebra has 6 body stripes • One bird in sky • Zebra tail tuft is short • Grass tuft at left foot	Zebra standing under acacia • Acacia has 2 foliage clumps (one missing!) • No sun • Zebra has 7 body stripes (one extra!) • Two birds in sky • Zebra tail tuft is long • No grass tuft

Can you spot them? 1) Missing acacia foliage clump | 2) Missing sun | 3) Extra zebra stripe | 4) Extra bird | 5) Tail tuft length & grass tuft

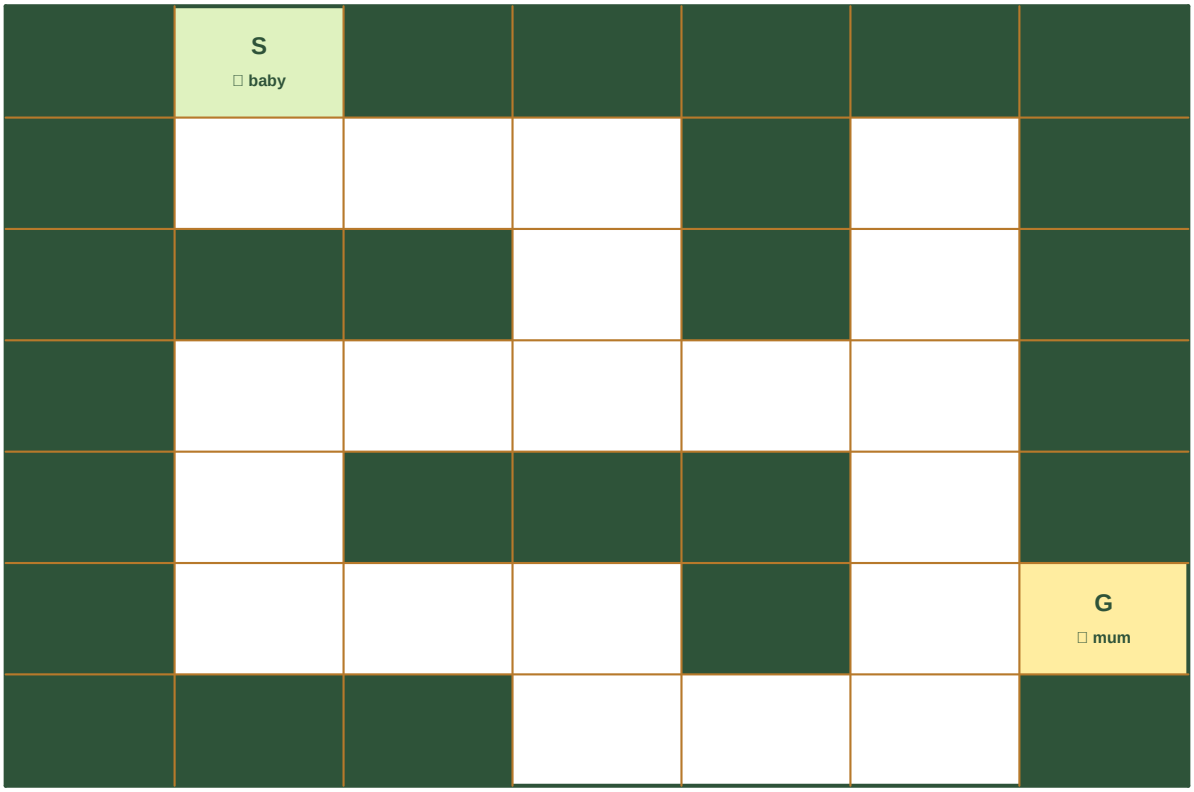

Answers on page 56 — did you get all five?

Circle the differences above, then draw your favourite difference below:

Bonus Activity 4

Help the Baby Elephant Find Its Mother!

Start at the baby elephant (S) and follow the paths to mother elephant (G). Only one route is correct!

Tip: Use a crayon to trace your path — go back if you hit a dark wall!

Answer path: S → down → down → right → right → down → right → right → down → right → G *(or see page 56)*

Bonus Activity 5

Draw an Animal's Natural Habitat

Choose your favourite African animal and draw where it lives. Add plants, water, or friends!

My favourite animal is: _____

Ideas:	Savannah — tall grass + acacia tree | Wetland — reeds + water | Desert — sand + rocks | Forest — tall trees + vines | Lake — pink flamingos
Remember:	Not all animals live together! A gorilla lives in forest, a meerkat in desert. Draw what fits your animal.

Draw here! Use crayons, add colour, and label plants or water. There is no wrong answer — habitats keep animals safe.

Answer Key

Check your bonus activities!

Activity 1 — Match the Animal to Its Name

A-4 (Giraffe → Tallest animal) | B-2 (Lion → King of Savannah) □ Example | C-6 (Elephant → Gentle giant) | D-5 (Zebra → Striped beauty) | E-3 (Cheetah → Fastest runner) | F-1 (Buffalo → Strong horns).

Activity 2 — Count the Animals

1) Watering Hole: Elephants=1 (or 1 adult), giraffes=1, zebras=1, birds=2 → Total distinct species groups = 4, individual animals = 4. (Panorama varies by printing; teachers may accept 3–5.)
2) Meerkat Family: 3 meerkats (1 large adult + 2 small pups).
3) Final Panorama (p.44): 5–6 large mammals clearly visible (elephant, giraffe, zebra, lion, rhino, ostrich) — count may vary if child spots distant birds.
4) Grasslands: Acacia trees = 3.
5) Lion Cubs: 3 cubs + 1 lioness = 4 lions total.

Activity 3 — Find the Differences (Zebra Friends)

1) Acacia foliage: Picture A has 3 clumps, Picture B has 2 (top-left clump missing).
2) Sun: Present in A (top-right), missing in B.
3) Zebra stripes: A has 6 body stripes, B has 7 (extra stripe near belly).
4) Birds: A has 1 bird, B has 2 birds in sky.
5) Tail & grass: A has short tuft + grass tuft at foot; B has long tuft and no grass.

Activity 4 — Maze: Help the Baby Elephant

One correct route: S (top row, column 2) → DOWN → DOWN? blocked, so RIGHT → RIGHT → DOWN → DOWN → RIGHT → RIGHT → DOWN → RIGHT → G (middle-right exit). On the grid: (0,1) → (1,1) → (1,2) → (1,3) → (2,3) → (3,3) → (3,4) → (3,5) → (4,5) → (5,5) → (5,6)=G. Any continuous path that avoids dark walls and reaches G is accepted — encourage children to trace with a finger first.

Activity 5 — Draw Your Habitat

There is no single correct answer! Check that: (1) The animal matches its real habitat (e.g., gorilla in forest, not desert), (2) At least two habitat clues are drawn (trees, water, rocks, grass), (3) The drawing is labelled. Praise creativity over perfection!

For parents/teachers: Use this key to celebrate effort, not just correctness. Every safari explorer learns at their own pace!

🦁 You're a Safari Star! 🦁

Safari Explorer Certificate

This certifies that

_____

(Write your name)

has explored Africa's amazing wildlife and nature,
coloured 40 safari animals and landscapes,
and completed 5 bonus activities!

Date: _____ Explorer Signature: _____

Give yourself a big roar! Next adventure: Baby Animals of Africa — coming soon in the Safari Wonders collection.

Your Safari Journey Continues…

Keep exploring, keep caring

You have coloured lions and elephants, cheetahs and flamingos, baobabs and waterfalls — you are officially a safari explorer! But the real adventure is just beginning. Africa's wild places need friends like you: people who notice, care, and protect.

What can you do next? Visit your local library for books about African conservation heroes. Learn about anti-poaching rangers, wildlife veterinarians, and community groups that help people and animals share the land. If you travel, choose guides who respect wildlife and keep a safe distance. Even at home, you can help by learning, sharing what you know, and being kind to all animals.

Look for the next book in the series:

Baby Animals of Africa Elephant calves, lion cubs, and fluffy chicks — with gentle tracing pages
African Birds and Their Habitats Swoop with fish eagles, storks, and weavers across wetlands and plains
Amazing Animals of the African Rainforest Gorillas, okapis, parrots, and forest elephants under the canopy

This book is designed as the first title in a possible African wildlife collection. No other books were created at this time — this one was made to a high standard first. Future titles will follow only after your feedback.

Thank you for choosing Safari Wonders Press. Share your coloured pages with #SafariWondersPress and inspire other young artists!

My Safari Sketchbook

Draw your own safari!

What animals would you see on YOUR dream safari? Draw them below — add acacia trees, a watering hole, or a sunrise!

My safari story: _____
